

2022/05/19, 16:44 - Thabelo (CS GROUP): Afternoon, we've done the voting.
Problem is when you press the up or down button, it displays on the database same time but only displays the updated votes on the output component when the app reloads/enter the app again..

2022/05/20, 01:01 - Payet: VID-20220520-WA0000.mp4 (file attached)

We still struggling to upload the image in the database so that we can see it with the post but for now we managed to get to choose a picture thing working:)

2022/05/20, 12:39 - Abelwe: Hey, I'm struggling to run this on my side. May someone else try to run it and check if it compiles on their side 鈔

2022/05/20, 13:09 - Sandile N 饒 : There was a problem with a class, it works on my side

2022/05/20, 13:11 - Abelwe: I managed to see what you mean by the voting only reflecting once you reload the app :)

2022/05/20, 16:21 - Puleng (CS GROUP): Can you add

myAdapter.notifyDataSetChanged(); right after the voting code

2022/05/20, 16:22 - Puleng (CS GROUP): This actually refreshes the list or recycle view

2022/05/20, 16:23 - Puleng (CS GROUP): Then check if this would solve the issue...

2022/05/21, 11:17 - Abelwe: I didn't get time to add this part izolo, I was working on the test coverage

2022/05/21, 11:19 - Abelwe: IMG-20220521-WA0001.jpg (file attached)

We were still struggling getting to the test coverage to appear on the badge but we are writing the test cases and they are working offline. We asked a tutor to help us out and they couldn't get the coverage to show on the badge as well. We did ask around the labs from other coms students, they are struggling with the same thing as well. If push comes to shove I think we can show the tutors this to prove that we have tests coded and they work.

2022/05/21, 11:19 - Abelwe: We're still writing more tests to try and get a higher coverage

2022/05/22, 09:24 - Abelwe: Morning, would everyone be okay with a 5pm scrum meeting just to touch base before tomorrow?

2022/05/22, 10:31 - Sandile N 饒 : Sounds good

2022/05/22, 11:33 - Sandile N 饒 : IMG-20220522-WA0016.jpg (file attached)

So @27734843407 and I were able to get a 14% code coverage so far. We will try and get in some more tests

2022/05/22, 17:00 - Abelwe: Hey everyone :) when you get the chance please update the groupchat about any notable progress, I will be going through Taiga this evening to update tasks.

Reminder, we need someone to take a vidoe of the so running and we need to send that off to Tristan before the presentations tomorrow

2022/05/22, 17:03 - Payet: We managed to assign the image to the post in the database..we only left with retrieving it... hopefully will be done before midnight 饒

2022/05/22, 17:06 - Rofhiwa (CS GROUP): Are you doing that with @27637128758?

2022/05/22, 17:07 - Payet: Nah with kat

2022/05/22, 17:08 - Sandile N 饒 : Managed to draw all the 4+1 uml diagrams and uploaded them on taiga. Wrote a few more test cases but the coverage hasn 鈔 gone up significantly

2022/05/22, 17:08 - Rofhiwa (CS GROUP): Linge sent you the code for where we left of?

2022/05/22, 17:09 - Payet: No

2022/05/22, 17:16 - Linge: Me and @27790876913 have finished we are only left with the picture which has to be done by @27633862960 and @payet

2022/05/22, 17:16 - Abelwe: Cool. Will look for more test cases and send those through

2022/05/22, 17:17 - Abelwe: Thanks for the update. 鈔

2022/05/22, 17:18 - Abelwe: Will anyone be able to make sure the video gets recorded and sent to Tristan, it does not have to have all the user stories but we do need to send that off to him..

2022/05/22, 17:19 - Linge: Were you guys able to fix this?

2022/05/22, 17:25 - Thabelo (CS GROUP): Still trying.

Had found another way of doing it which does display an updated vote on the output component without having to reload but problem is after it displays an updated vote it immediately says wits-overflow not responding and stops the app.

2022/05/22, 19:18 - Rofhiwa (CS GROUP): Check what it says on the error list the moment it crashes

2022/05/22, 19:18 - Rofhiwa (CS GROUP): Will you be needing any assistance?

2022/05/23, 09:02 - Payet: Guys retrieving the images seems like the issue rn we even tried it with @27790876913but I'm still waiting for his feedback on that

2022/05/23, 09:42 - Abelwe: Is there any short cut you think would work in terms of tricking the tutors into thinking it works 餽櫛

2022/05/23, 09:45 - Payet: I'm working on that..what time does Tristan wants the video?

2022/05/23, 09:51 - Abelwe: He didn't specify the time but it should be before the presentations
