[2022/03/10, 08:04:36] Software Design group: ‚ÄéMessages and calls are end-to-end encrypted. No one outside of this chat, not even WhatsApp, can read or listen to them.
[2022/03/10, 08:04:36] ‚ÄéKatlego created this group
[2022/03/13, 17:58:40] ‚ÄéYou joined using this group's invite link
[2022/03/13, 23:44:52] Katlego: Hi guys, we have to pick the scrum master and decide on the name of our group, so I suggest that we meet tomorrow during lunch so we can finalize everything
[2022/03/13, 23:51:43] ‚ÄéKatlego changed this group's icon
[2022/03/14, 00:02:05] Payet : Fine with me
[2022/03/14, 09:24:59] Puleng: Where we meeting at?
[2022/03/14, 09:43:16] Katlego: Outside MSL
[2022/03/14, 09:44:31] Abelwe Ndiki: At what time?
[2022/03/14, 09:45:21] Katlego: 13:15
[2022/03/14, 09:52:36] Abelwe Ndiki: Cool cool
[2022/03/14, 12:47:19] Puleng: Apologies I might be few minutes late...
[2022/03/14, 12:56:06] Abelwe Ndiki: I'm around MSL already, if someone has arrived do let me know so I can move closer to MSL
[2022/03/14, 13:17:09] Abelwe Ndiki: Has anyone arrived at MSL?
[2022/03/14, 13:21:00] Katlego: Yes
[2022/03/14, 13:21:13] Abelwe Ndiki: Okay, see you in a sec
[2022/03/14, 13:25:30] Linge: Is anyone not ganna be able to come?
[2022/03/14, 13:27:42] Thabelo: Where are you guys?
[2022/03/14, 13:27:59] Katlego: MSL
[2022/03/14, 13:28:21] Thabelo: Please raise you hand.￼üôè￼üèæ

[2022/03/14, 15:10:48] Abelwe Ndiki: Sent the group details to Tamlin
[2022/03/14, 18:08:18] Tshepang: evening everyone , Tshepang here , sorry i couldn't make it today , been sick the whole weekend , apologies for any inconvenience ￼üôè￼üèæ￼üôè￼üèæ . hope to see y'all soon
[2022/03/15, 01:01:31] Puleng: Wits overflow
Wits social
Marking system
[2022/03/15, 01:02:13] Puleng: That's my top 3 projects, not in order...
[2022/03/15, 01:05:22] Payet : Wits Social
Wits academy
Wits overflow
Not in order
[2022/03/15, 01:22:15] Rofhiwa: Wits Overflow
Givealittle
Wits Social
My top 3
[2022/03/15, 06:43:49] Abelwe Ndiki: Would it be find with the rest of the team if they sent in their top 3 before the end of the day?

,Äé[2022/03/15, 10:20:02] Abelwe Ndiki: Project List 2022.pdf ,Ä¢ ,Äé19 pages ,Äédocument omitted
[2022/03/15, 11:08:12] Sandile: My top 3:
CSAM marks system
Wits overflow
Wits social
[2022/03/15, 11:20:18] Abelwe Ndiki: My top 3
Givealittle
Shopping List
CSAM Marks System
[2022/03/15, 11:21:36] Abelwe Ndiki: This information needs to be submitted on the 18th of March. Groups that submit early get priority for the project assignment. So lets try to finalize the list tonight to I can send it out as soon as possible :)
[2022/03/15, 12:09:00] Katlego: Wits Social
Givealittle
Wits Overflow
[2022/03/15, 12:23:34] Tshepang: Wits Academy
CSAM marks system
Tournament server
[2022/03/15, 13:17:08] Abelwe Ndiki: We still need two people to give their project selections namely @27637128758 and @27665431841.
I have recorded the selections so far, then once I get the remaining project list, then I will let everyone know which ones got the most votes.
I think I can submit our final project list tonight :)
[2022/03/15, 13:46:07] Linge: Shopping list
Givealittle
Witssocial
[2022/03/15, 13:55:05] Abelwe Ndiki: Cool cool ,ú®
[2022/03/15, 13:55:37] Thabelo: Wits social.
Wits academy.
Wits overflow.
[2022/03/15, 14:01:45] Abelwe Ndiki: Wits Social 7
Wits Overflow 6
Givealittle 4
CSAM Marking System 4
Wits Academy 3
Shopping List 2
Tournament server 1
[2022/03/15, 15:07:46] Abelwe Ndiki: Should I put down the projects with the most votes first. If we take that approach we have a tie between Givealittle and CSAM Marking System?
[2022/03/15, 15:11:09] Linge: Honestly the marking system seems a bit hard
[2022/03/15, 15:11:33] Katlego: Facts
[2022/03/15, 15:21:42] Abelwe Ndiki: Okay, then would everyone be okay with this order for the project list
Wits Social
Wits Overflow
Givealittle
?
[2022/03/15, 15:25:01] Sandile: Sounds good üëçüèæ
[2022/03/15, 15:25:04] Payet : Fine with me
[2022/03/15, 15:29:44] Abelwe Ndiki: Thanks for the feedback. I'm just going to wait and hour or so for the others to give feedback then I will send out the project list!
[2022/03/15, 17:26:35] Puleng: Let's take it as our last option then:

Wits Social
Wits Overflow
CSAM Marking system
[2022/03/15, 17:27:00] Puleng: I prefer the overflow 1st though
[2022/03/15, 17:31:05] Abelwe Ndiki: We need to break the tie for the Givealittle and CSAM Marking System. We have to decide which will get placed in the 3rd slot.
I think everyone needs to place a vote about which project we will keep between Givealittle and the CSAM Marking System. The one that gets the most votes will be placed in the 3rd slot.. Would that be okay?
[2022/03/15, 17:31:55] Abelwe Ndiki: Once we settle which project we will include in the final list between the marking system and Givealittle. We can work through which project gets first preference between the Overflow or The Social project
[2022/03/15, 17:34:58] Puleng: Cool, and another thing is we have to decide which one is our 1st choice between wits social and overflow. Most of us didn't send the list in a preference order
[2022/03/15, 17:36:14] Thabelo: CSAM marking system.
[2022/03/15, 17:36:33] Puleng: CSAM Marking system
[2022/03/15, 17:36:55] Payet : Givealittle
[2022/03/15, 17:38:51] Puleng: Another thing is we can't fear projects, in the workplace we won't get to choose. And besides most of the project we chose are the same, so is better to add something different
[2022/03/15, 17:39:01] Katlego: Givealittle
[2022/03/15, 17:39:14] Abelwe Ndiki: Cool. Let's just give some time for people to vote for either Givealittle or CSAM Marking System so that we can quickly sort that out and move on to the next item.
[2022/03/15, 17:40:36] Thabelo: □üòÑ□üëå□üèæ
[2022/03/15, 17:59:29] Tshepang: CSAM Marking System
[2022/03/15, 18:23:56] Abelwe Ndiki: Still waiting for 3 more people to vote, but I have recorded the votes so far for the tie :)
[2022/03/15, 18:28:55] Linge: Givealittle
[2022/03/15, 18:30:30] Rofhiwa: Givealittle
[2022/03/15, 18:38:57] Abelwe Ndiki: Okay, we still have one person that hasn't voted but as it stands
Givealittle 5
CSAM Marking System 3
Irregardless of what the last group member votes, it won't swing the result. So I will be putting Givealittle in the 3rd slot preference.
Is everyone comfortable with moving forward to deciding which project gets the first slot preference?
[2022/03/15, 18:41:02] Katlego: Okay my first preference is Wits Social
[2022/03/15, 18:41:35] Linge: Wits social
[2022/03/15, 19:09:30] Rofhiwa: Mine‚Äôs also Wits social
[2022/03/15, 19:32:16] Thabelo: Wits social.
[2022/03/15, 19:49:57] Abelwe Ndiki: Wits Social
[2022/03/15, 19:50:16] Payet : Wits Social
[2022/03/15, 19:50:30] Sandile: Wits social
[2022/03/15, 19:51:26] Abelwe Ndiki: Wits Social currently has 7 votes, so it will go in the first slot as the remaining votes will not change the outcome.
Great guys! Will type up the email and send it to Tamlin
[2022/03/15, 19:52:04] Abelwe Ndiki: Email sent :).
Thanks for the feedback + collaboration everyone.
‚Äé[2022/03/15, 19:52:34] Payet : ‚Äésticker omitted
[2022/03/15, 19:53:39] Abelwe Ndiki: The first sprint is due on the 11th of April. We have just a little over 3 weeks to work on it incase anyone needed an idea of the next submission deadline :)

[2022/03/15, 20:07:00] Abelwe Ndiki: Reminder : Create a github account for the project
[2022/03/18, 16:10:18] Payet : Good day everyone...we got the Wits overflow project
[2022/03/18, 16:14:29] Abelwe Ndiki: Thanks for the update!
[2022/03/22, 15:38:55] Abelwe Ndiki: Afternoon everyone. I am in the process of booking an intro meeting with our client. I want to check if everyone will have availability after 14:30pm this upcoming Friday?
[2022/03/22, 15:41:18] Sandile: I will only be available after 17:00 as I have a lecture then test between 14:30-16:30
[2022/03/22, 15:43:44] Abelwe Ndiki: Noted. I will wait to get everyone's availability and then we will figure out what time I will try and book the intro meeting.
[2022/03/22, 15:45:52] Payet : Avaiy
[2022/03/22, 15:45:53] Payet : Available
[2022/03/22, 15:48:01] Abelwe Ndiki: I'm hoping we can decide on a time by this evening, so that I can send our preferred time slot to the client, and revert back with their availability.
[2022/03/22, 15:48:45] Linge: Me too
[2022/03/22, 15:51:31] Rofhiwa: I‚Äôll also be available, what about Thursday?
[2022/03/22, 15:51:54] Katlego: I‚Äôll be free
[2022/03/22, 16:59:43] Abelwe Ndiki: I only have availability for Thursday morning at 08:30 am
So I can suggest Friday Afternoon or Thursday morning to the client and hear from them when they have an opening in their schedule.
Would that work for everyone? I will also let the client know that our preference is for Friday afternoon, but we're comfortable meeting around their availability as well
[2022/03/22, 17:32:44] Rofhiwa: But I think anyday during lunch would be okay
[2022/03/22, 17:54:36] Abelwe Ndiki: Cool, will send out the email in a bit
[2022/03/22, 18:00:21] Abelwe Ndiki: Done. Will update everyone once I get a response
[2022/03/22, 18:36:21] Abelwe Ndiki: Our client has availability for this upcoming Friday.
Would Google Teams work for everyone?
I'm going to notify him that not all our group members will be able to make the meeting cause of pre-standing commitments and check if that will be okay with Tristan.
[2022/03/22, 18:54:19] Rofhiwa: That‚Äôs fine with me
[2022/03/22, 18:55:28] Payet : Fine with me too
[2022/03/22, 18:56:28] Katlego: My pc doesn‚Äôt have a mic
[2022/03/22, 19:00:59] Rofhiwa: Phone?
[2022/03/22, 19:01:55] Katlego: Oh yeah that will do
[2022/03/22, 19:13:32] Abelwe Ndiki: Cool.
[2022/03/23, 10:36:00] Abelwe Ndiki: Sent out the meeting invites. Let me know if you did not receive it. Thanks
[2022/03/25, 13:55:43] Abelwe Ndiki: Gentle reminder that we have our intro meeting today at 3pm. I have excused @27728095513 from the meeting. If anyone will be unavailable please let me know
[2022/03/25, 14:08:04] Puleng: I thought it was gonna be from 14:00 to 15:00
[2022/03/25, 14:13:18] Abelwe Ndiki: It's actually 3pm - 4pm
I specified on the meeting invites.
[2022/03/25, 14:14:03] Abelwe Ndiki: I scheduled it for after the FLA slot on Friday

[2022/03/25, 14:18:51] Puleng: Just checked□üëç□üèΩ
[2022/03/25, 14:28:30] Abelwe Ndiki: Cool cool
[2022/03/25, 15:03:52] Katlego: I,Äôll be a bit late
[2022/03/25, 15:04:06] Rofhiwa: Why
[2022/03/25, 15:05:50] Abelwe Ndiki: The meeting is about to kick off. May everyone please join as there are only 5 people in attendance including myself
[2022/03/25, 15:07:48] Katlego: I can,Äôt install ms teams on my phone, it has to be updated first so I,Äôm trying to use my laptop but it,Äôs slow
[2022/03/25, 15:08:06] Rofhiwa: ,ÄéThis message was deleted.
[2022/03/25, 15:08:19] Payet : We only waiting for you
[2022/03/25, 15:08:28] Abelwe Ndiki: We're using Google teams. You can click the link and be able to join from the browser
[2022/03/25, 15:10:17] Katlego: I,Äôve joined
[2022/03/25, 15:26:14] Abelwe Ndiki: Summary of the intro meeting.
The client wants 5 users stories namely
Home Page
Log In Page
Registration Pg for User
Registration Pg for Admin
Navigation page where you can view the user's details.
For the registration pages, the should be a option to use either a cellphone number or an email address for a user name. There should be validation checks for details entered including the passwords.
He suggested that it might be beneficial we use the programming language called Flutter for the project. We will vote on this a bit later.
His tips were that the marks for linking our github accounts to the platform where we will be testing our project. Marks for presentation so having animations might be beneficial
[2022/03/25, 15:27:28] Abelwe Ndiki: If I missed anything please don't not hesitate to add on. I would like to request that we all individually research on Flutter so we can make a decision on which programming language we feel comfortable using. We can hold a vote on Monday. Thanks
[2022/03/25, 15:28:23] Payet : Perfect
[2022/03/25, 15:32:49] Thabelo: During login, need to be able to save password so you can login automatically next time if you lazy to put password all the time.
[2022/03/28, 17:06:38] Katlego: Guys, In terms of what language we going to use, I think Flutter is our best bet since it,Äôs specifically for building apps and the language used has a similar syntax to Java and C++ so it should be easy for us to use since we are familiar with those languages
[2022/03/28, 17:07:30] Rofhiwa: I,Äôm with you on that one
[2022/03/28, 17:21:48] Abelwe Ndiki: Do you know anyone that used Flutter last year who might be able to help us if we have challenges coding?
[2022/03/28, 17:24:47] Sandile: So guys apparently the tutors last year couldn,Äôt help those who were using flutter because they themselves were not familiar with it
[2022/03/28, 17:26:41] Sandile: Which server are we going to use because the ones who used flutter last year said they had problems using the wits server and extracting data from the wit server
[2022/03/28, 17:27:59] Sandile: Do we even have time to learn flutter given that sprints are two weeks apart ?
[2022/03/28, 17:29:49] Rofhiwa: @27728095513 you also making a good point

[2022/03/28, 17:41:38] Katlego: Okay guys, since there seems to be issues regarding flutter let‚Äôs put it aside for now and explore other options. What alternatives do we have so far?
[2022/03/28, 17:42:37] Payet : Java
[2022/03/28, 17:43:13] Katlego: Android studio?
[2022/03/28, 17:44:05] Payet : Fine with it too
[2022/03/28, 18:11:42] Rofhiwa: Android studios sounds cool for me
[2022/03/29, 16:22:51] Linge: I'll go with android studio too
[2022/03/29, 16:29:12] Abelwe Ndiki: Same
[2022/03/30, 00:32:12] Linge: guys can we get the rest of you's vote so we can start
[2022/03/30, 00:39:20] Thabelo: Yeah.
[2022/03/30, 11:02:09] Abelwe Ndiki: I just did the tally. The majority vote is leaning towards Android Studio.
So I think we can move on from this part.
[2022/03/30, 11:02:47] Abelwe Ndiki: Does anyone have a list of the things we need to submit for the first sprint so we can start dividing the work?
‚Äé[2022/03/30, 11:09:05] Abelwe Ndiki: ‚Äéimage omitted
[2022/03/30, 11:09:14] Sandile: ‚Ä¢ Proof of scrum meetings
‚Ä¢ Requirements analysis document
‚Äé[2022/03/30, 11:09:16] Abelwe Ndiki: ‚Äéimage omitted
[2022/03/30, 11:10:08] Abelwe Ndiki: I spot to Tamlin about this during his lecture. He said that we can submit the WhatsApp logs as proof of the scrum meetings
[2022/03/30, 11:11:01] Abelwe Ndiki: So the images I just sent through are from Tristan (Client). This is what he wants the navigation functionally to look like and the details that it should display
[2022/03/30, 11:23:03] Abelwe Ndiki: Side note : Do we do requirement specification in the first sprint as well?
[2022/03/30, 11:26:19] Abelwe Ndiki: So off the top of my head here is a list of tasks that we need to do. If at any point I have included a task that is not meant for sprint 1 please let me know. If I missed something for sprint 1, please also let me know
1) Documentation of the functional requirements
2) Documentation of the non-functional requirements
3) On-Screen appearance requirements
4) Refinement of the client requirements
5) Explicitly identifying business rules
6) Documenting user stories (this falls under requirements specification)
[2022/03/30, 11:27:51] Abelwe Ndiki: I would like to work on the on-screen appearance requirements for sprint 1.
I will email Tamlin to check if we need to include requirements specifications in sprint 1 (UML diagrams, acceptance tests, user stories, etc)
[2022/03/30, 12:04:53] Sandile: I‚Äôll do Refinement of client requirements
[2022/03/30, 16:08:08] Rofhiwa: What about the coding part?
[2022/03/30, 16:09:45] Abelwe Ndiki: Do we need to have all the user stories coded?
[2022/03/30, 16:10:37] Abelwe Ndiki: Also is this list accurate? Tamlin said we do need user stories and each user story needs to be accompanied by an acceptance test. This could be done on a paragraph format
‚Äé[2022/03/30, 16:35:42] Abelwe Ndiki: ‚Äéimage omitted
‚Äé[2022/03/30, 16:35:44] Abelwe Ndiki: ‚Äéimage omitted
‚Äé[2022/03/30, 16:35:45] Abelwe Ndiki: ‚Äéimage omitted
‚Äé[2022/03/30, 16:35:46] Abelwe Ndiki: ‚Äéimage omitted

‚Äé[2022/03/30, 16:35:48] Abelwe Ndiki: ‚Äéimage omitted
‚Äé[2022/03/30, 16:35:49] Abelwe Ndiki: ‚Äéimage omitted
[2022/03/30, 16:37:07] Abelwe Ndiki: This is the on-screen requirements that I have done so far. I used mock plus cause it was recommend in the notes. I'm stuck on what other info we should include in the profile. Would appreciate everyone's overall thoughts on the appearance?
[2022/03/30, 16:40:38] Rofhiwa: I think it looks good
[2022/03/30, 16:41:34] Sandile: Is address necessary?
[2022/03/30, 16:41:48] Abelwe Ndiki: We need people to select which tasks they want to do. We need people to code for sprint 1. I don't think we need to code everything right now but maybe the basic log in, sign up
[2022/03/30, 16:42:25] Abelwe Ndiki: I was hesitant to put it actually. I wasn't sure what info to include in the user profile. Thoughts @everyone
[2022/03/30, 16:43:03] Abelwe Ndiki: A students degree course maybe or atleast their faculty...?
[2022/03/30, 16:45:00] Rofhiwa: I can do 6
[2022/03/30, 16:45:47] Abelwe Ndiki: Thank you :)
[2022/03/30, 16:46:47] Rofhiwa: I think we can even put both
[2022/03/30, 16:50:55] Abelwe Ndiki: Noted
[2022/03/30, 21:26:34] Rofhiwa: so the number under his name would be a staff number for a lecture or student number for a student right?
[2022/03/30, 21:43:25] Abelwe Ndiki: Yes. That was my thought process
[2022/03/31, 00:00:13] Puleng: Guys is it possible if we could do another meeting with the client again on Friday?
[2022/03/31, 00:01:34] Puleng: But we'd need to discuss a few things, make sure we are on the same page about everything that needed for this spirit and the app requirements.
[2022/03/31, 09:12:56] Abelwe Ndiki: Would it not be possible to hold the discussion here, just to save time and so that we can immediately start working on the things you will be bringing up?
[2022/03/31, 09:23:30] Katlego: We can also refer to the rubric in terms of what‚Äôs needed for the first sprint
[2022/03/31, 11:23:43] Puleng: Cool we can discuss few things later tonight...
[2022/03/31, 11:24:03] Payet : Sure
[2022/03/31, 11:24:29] Abelwe Ndiki: I'm cool with this as well ‚ú®
[2022/03/31, 11:26:28] Sandile: Sounds good 􀀀üëå􀀀üèæ
[2022/03/31, 17:40:07] Abelwe Ndiki: What time should everyone avail themselves?
[2022/03/31, 19:14:20] Payet : Anytime is fine with me
[2022/03/31, 19:19:10] Abelwe Ndiki: Let's say 8pm
[2022/03/31, 19:41:33] Rofhiwa: Will the meeting be via call?
[2022/03/31, 19:45:22] Puleng: Maybe to avoid over texting
[2022/03/31, 19:46:18] Rofhiwa: Lets say 8:30 then me I‚Äôm still cooking something and have to keep an eye
[2022/03/31, 20:01:46] Abelwe Ndiki: How many people can be on a call at once? It might be better via text so that we can export the convo as proof
So we are starting at 08:30pm?
[2022/03/31, 20:05:08] Puleng: Cool we can start...
[2022/03/31, 20:08:48] Puleng: Is the project already registered on GitHub?
[2022/03/31, 20:10:51] Abelwe Ndiki: I am aware that @27728095513 created a github repository for the group
[2022/03/31, 20:11:57] Rofhiwa: If its over text we can start
[2022/03/31, 20:12:51] Puleng: Can everyone please open the SD outline (rubric page) and Scrum reference card, we need to discuss where we at with the project now

[2022/03/31, 20:13:11] Abelwe Ndiki: Cool
[2022/03/31, 20:14:08] Katlego: Does that mean we can all gain access to it?
[2022/03/31, 20:15:28] Sandile: Yes, I just need your GitHub usernames so I can add you
[2022/03/31, 20:17:35] Linge: Should we send em here or your dms?
[2022/03/31, 20:17:46] Katlego: Alright
[2022/03/31, 20:17:49] Puleng: Username: PulengAlvi
[2022/03/31, 20:18:36] Sandile: Here is fine
[2022/03/31, 20:20:42] Linge: @Lingedzani
[2022/03/31, 20:20:58] Abelwe Ndiki: @abelwen
[2022/03/31, 20:21:04] Katlego: @ThatBoyAsh
[2022/03/31, 20:21:46] Payet : payet10
[2022/03/31, 20:22:55] Thabelo: TRJMajika
[2022/03/31, 20:23:53] Rofhiwa: Rofhiwa67
[2022/03/31, 20:25:37] Puleng: @27728095513 i think everyone one submitted their usernames.
[2022/03/31, 20:26:31] Tshepang: xhepan
[2022/03/31, 20:29:55] Puleng: So guys last week Friday, we started our "Spring planning meeting "- & negotiated product backlog items we can attempt to convert to working products during this 1st sprint right?
[2022/03/31, 20:31:13] Puleng: Which were these ones... Now our next step was?
[2022/03/31, 20:33:31] Abelwe Ndiki: Submitting the requirements analysis document
[2022/03/31, 20:34:35] Puleng: Hope we looking at the same docs
[2022/03/31, 20:34:59] Payet : Yeah
[2022/03/31, 20:35:15] Abelwe Ndiki: The outline2022 doc which contains the rubric, right?
[2022/03/31, 20:35:25] Puleng: Yep
[2022/03/31, 20:36:02] Abelwe Ndiki: Cool. So am I correct in saying that the next step is working on the requirements analysis document?
[2022/03/31, 20:37:00] Puleng: Yep that's correct if we working in order of the rubric
[2022/03/31, 20:38:04] Abelwe Ndiki: Cool. So are these all the things that need to be included in the requirements analysis doc. If anyone sees anything missing or unnecessary may they please let us know
[2022/03/31, 20:38:29] Puleng: For "Proof of scrum meetings" we only left with the retrospectives at the end of the sprint
[2022/03/31, 20:40:18] Sandile: Is there like a template available of the requirements analysis document?
[2022/03/31, 20:40:41] Abelwe Ndiki: We can also export the chat logs for the group as proof of the daily scrum meetings.
[2022/03/31, 20:40:52] Abelwe Ndiki: I haven't come across it yet...
[2022/03/31, 20:41:36] Sandile: So should be have like a particular time everyday where just come on here and check in how far everyone is ?
[2022/03/31, 20:41:43] Puleng: □üëç□üèΩ, removing that off our Todo list,úç□üè°
[2022/03/31, 20:41:55] Abelwe Ndiki: Thanks :)
[2022/03/31, 20:42:21] Payet : That will be perfect
[2022/03/31, 20:42:22] Abelwe Ndiki: Yes I agree with this. I suggest lunch time since everyone is free around that time
[2022/03/31, 20:42:52] Linge: I'm good with lunch time
[2022/03/31, 20:42:58] Sandile: Me too
[2022/03/31, 20:43:03] Rofhiwa: Sounds cool
[2022/03/31, 20:43:11] Katlego: □üëå□üèΩ
[2022/03/31, 20:43:20] Tshepang: □üíØ

[2022/03/31, 20:43:43] Puleng: I think we should divide the work needed for "Requirements analysis" just to ensure everyone is working and upto date with the progress
[2022/03/31, 20:44:16] Abelwe Ndiki: I did ask for everyone to choose the work they would like to do but very few people made their choices
[2022/03/31, 20:44:19] Thabelo: Late at night?
[2022/03/31, 20:44:54] Sandile: I think majority opted for lunch time, i.e. between 13:15-14:15
[2022/03/31, 20:45:32] Puleng: Requirements analysis: project created on Taiga, an overview section completed on wiki/Taiga, user stories fully documented with tasks are required for this section.
[2022/03/31, 20:46:15] Abelwe Ndiki: The on-screen requirements have already been done, and @27728095513 said that they will be working on the refinement of the requirements. I stand to be corrected on this tho
I think these would fall under the "over view" section
[2022/03/31, 20:47:28] Abelwe Ndiki: Someone said that they will be working on the user stories as well. I believe it was @27790876913..
Please correct me if I'm mistaken ￼üòÖ
[2022/03/31, 20:49:09] Sandile: Invites on GitHub have been sent
[2022/03/31, 20:49:09] Rofhiwa: Yeah I‚Äôve done some, I‚Äôll send them in a few so that we can add if we adding something together as a group
[2022/03/31, 20:49:19] Sandile: ￼üëå￼üèæ
[2022/03/31, 20:49:33] Abelwe Ndiki: Thank you!
[2022/03/31, 20:49:34] Puleng: Looking at the rubric, we won't be able to finish everything at this rate, so we need a plan
[2022/03/31, 20:49:44] Abelwe Ndiki: Great :)
[2022/03/31, 20:49:53] Katlego: I can do functional requirements
[2022/03/31, 20:50:15] Linge: I can di the non functional
[2022/03/31, 20:50:24] Abelwe Ndiki: What tasks still need to be allocated @27712636997
[2022/03/31, 20:50:39] Linge: ..
[2022/03/31, 20:50:45] Payet : Can take care of 5
[2022/03/31, 20:51:40] Abelwe Ndiki: Great.
[2022/03/31, 20:51:41] Tshepang: I can help you this these
[2022/03/31, 20:52:19] Abelwe Ndiki: We need someone to do the business rules and I believe we're supposed to submit some code as well so we will need people to work on that as well
[2022/03/31, 20:52:41] Katlego: Okay cool
[2022/03/31, 20:53:04] Katlego: I don‚Äôt think we have to do any coding for the first sprint
[2022/03/31, 20:53:39] Linge: I can do the business rules if anyone wants de non functional requirements
[2022/03/31, 20:54:11] Payet : We can swap it's fine
[2022/03/31, 20:54:44] Linge: Awe
‚Äé[2022/03/31, 20:54:58] Abelwe Ndiki: ‚Äéimage omitted
[2022/03/31, 20:55:24] Sandile: I think we do. Another group said they coded
[2022/03/31, 20:56:29] Puleng: User stories code
[2022/03/31, 20:57:22] Puleng: We need to start coding for product backlog items we chose for this sprint
[2022/03/31, 20:57:50] Thabelo: I haven't been assigned a task, so I can take it.
[2022/03/31, 20:58:08] Abelwe Ndiki: The actual code for the log ins, registration, home page etc?
[2022/03/31, 20:58:10] Linge: Aren't supposed to submit a working log in and registration page?
[2022/03/31, 20:58:25] Abelwe Ndiki: Just these two?

[2022/03/31, 20:59:19] Linge: I'm not sure, @27790876913 u mind spending de video of de msteam meeting?
[2022/03/31, 20:59:26] Puleng: All these need to be coded and our code must be readable
[2022/03/31, 20:59:41] Rofhiwa: And an option to see your details when logged in
[2022/03/31, 21:00:03] Rofhiwa: The video is useless bruh, it doesn‚Äôt have sound üíÄ
[2022/03/31, 21:00:41] Abelwe Ndiki: Will you be able to code all the user stories alone?
[2022/03/31, 21:01:02] Thabelo: No I'm gonna need some help.
[2022/03/31, 21:01:27] Puleng: Cool we can work on it
[2022/03/31, 21:01:30] Rofhiwa: I think we should divide the coding work cause thats why we using github
[2022/03/31, 21:02:07] Puleng: Yep, I was thinking we can work in pairs for each user stories code
[2022/03/31, 21:02:12] Sandile: Agreed
[2022/03/31, 21:03:05] Abelwe Ndiki: For Sprint 1 as well, or for sprint 2 going onwards where we deal with less documentation and more coding?..
[2022/03/31, 21:03:44] Puleng: Same as this sprint but dealing with a different product backlog items
[2022/03/31, 21:04:17] Tshepang: I can take the Log In code part , validations and all ..
[2022/03/31, 21:04:40] Abelwe Ndiki: Me and Sandile can take reg
[2022/03/31, 21:04:55] Abelwe Ndiki: If he is comfortable with that?
[2022/03/31, 21:04:59] Puleng: @27633862960 bro we can use the code of mobile computing from last yearüòÇ
[2022/03/31, 21:05:17] Payet : @27637128758 even us poiüòπüòπ
[2022/03/31, 21:05:30] Katlego: You still have it?
[2022/03/31, 21:05:31] Abelwe Ndiki: Which code are you guys referring to? ü§£
[2022/03/31, 21:05:42] Puleng: AytüòÇü§£ so we sorted üëçüëèüëÄ
[2022/03/31, 21:05:43] Rofhiwa: And we still need a database
[2022/03/31, 21:06:01] Linge: üòÖ still have it?
[2022/03/31, 21:06:06] Abelwe Ndiki: Also what are product backlog items?
[2022/03/31, 21:06:12] Sandile: Yess
[2022/03/31, 21:06:38] Puleng: Sprint 2 has another sprint plan meeting to discuss such
[2022/03/31, 21:07:01] Abelwe Ndiki: Cool. Will discuss it then
[2022/03/31, 21:07:18] Puleng: Yep, probably on my Google drive
[2022/03/31, 21:08:30] Abelwe Ndiki: Just to clarify the user stories code that needs to be done is it being handled by @27712636997 and @27665431841 for Sprint 1 and then moving onward everyone will work on coding the project
Or
Is each person tasked with a bit of documentation (requirements of analysis) and the responsibility to code a user story?
[2022/03/31, 21:09:01] Thabelo: The mysql thingie?
‚Äé[2022/03/31, 21:09:23] Rofhiwa: USER STORIES.docx ‚Äédocument omitted
[2022/03/31, 21:09:24] Puleng: Yep
[2022/03/31, 21:09:40] Abelwe Ndiki: Thank you :)
[2022/03/31, 21:09:43] Rofhiwa: if I did something wrong please tell me
[2022/03/31, 21:10:09] Puleng: Still using the lamp server right?
[2022/03/31, 21:11:03] Puleng: We'll also need a group of members who are gonna be responsible for planning the database structure and implementation of the server part
[2022/03/31, 21:11:20] Abelwe Ndiki: Does this need to be done for sprint 1?

[2022/03/31, 21:12:04] Abelwe Ndiki: I'm going to need to "jump" off this meeting for a bit, may I please get some clarity on this so I can finalize everyone's tasks for Sprint 1
[2022/03/31, 21:13:14] Thabelo: It seems so cuz registration data needs to be stored somewhere.
[2022/03/31, 21:13:37] Payet : Yeah...I think we need it
[2022/03/31, 21:15:35] Puleng: So who's gonna be responsible for planning the server part?
[2022/03/31, 21:18:48] Abelwe Ndiki: I can email Tamlin to get a little bit of clarity on whether we need to code all the user stories for Sprint 1 or just the log in and registrations so we can get an idea of how much coding we will do.
But when it comes to the documentation part of the requirements analysis I believe everyone has been assigned tasks. Hopefully we can wrap up that part by the weekend so we can focus on coding next week.
I have a prestanding commitment at 21:30pm so I won't be able to contribute further tonight. Once I get a response from Tamlin I will let everyone know. Thanks
[2022/03/31, 21:20:29] Rofhiwa: I think I can do it for this sprint we'll improve it together as we go forward with other sprints
[2022/03/31, 21:25:49] Thabelo: I think you left to mention the type of user you are in the user stories.
i.e As a xxxx, when I open the ....
[2022/03/31, 21:28:54] Puleng: Guess we'll discuss Software architecture and design we gonna use for this project tomorrow and progress...
[2022/03/31, 21:31:26] Rofhiwa: So you have to di that on every sentence?üíÄ
[2022/03/31, 21:40:45] Thabelo: I'm not sure, but I'm guessing so, cuz different users use the app for different reasons.
What do you think?
[2022/03/31, 21:43:52] Rofhiwa: I thought those were going to be for the upcoming sprints because for now there‚Äôs nothing the user will find in the app except their own details
[2022/03/31, 21:50:46] Thabelo: Okay yeah I get you.
But I still feel like you should mention maybe say:
As a new user, when I open the app I wanna see two options, regi...
As a loged in user, ...
As a logged out user, I wanna be able to login with....
What do you think?
[2022/04/01, 11:02:30] Abelwe Ndiki: Daily scrum at 13:30pm?
[2022/04/01, 11:09:16] Puleng: Over the phone ?
[2022/04/01, 11:17:49] Abelwe Ndiki: I believe so. I think just to give an update on the progress for the individual tasks for the requirements analysis.
[2022/04/01, 13:21:30] Abelwe Ndiki: We will start the daily scrum updates in 10 minutes. May everyone prep their updates so that we can wrap up the meeting swiftly ‚ú®
[2022/04/01, 13:31:24] Abelwe Ndiki: Update on the on-screen requirements : 90% completed. I need to add labels for the students faculty and degree course in the 'profile' on-screen requirements. I will be done with that by the end of the day.
I sent Tamlin an email asking about the exact user stories we need to code for Sprint 1. Still waiting for feedback from him
[2022/04/01, 13:33:18] Sandile: Alright.
I am done with the refinements section of requirement analysis. I will send it through so that everyone can comment on it
[2022/04/01, 13:34:24] Abelwe Ndiki: Thank you :)

[2022/04/01, 13:36:17] Rofhiwa: I‚Äôm left with just changing the user stories here and there, I‚Äôll resend them once I‚Äôm done
[2022/04/01, 13:36:52] Linge: I'm done researching business rules and still doing them, I'll be done by tomorrow evening
[2022/04/01, 13:37:33] Payet : Halfway with the non functional requirements
[2022/04/01, 13:38:23] Puleng: I'm done with the setup, and the log in page. Hopefully I can also do the registration by the end of the day
[2022/04/01, 13:39:53] Katlego: I should be done with my part for the functional requirements by the end of the day then I‚Äôll pass it on to @27740483378 to finish off
[2022/04/01, 13:42:22] Abelwe Ndiki: Thanks for the update. Is there anyone who thinks they will be completely done with their task by tonight? The changes that I need to make will be done by the end of the day. I want the group to have a general idea of the stuff that will be done during the weekend and the stuff that has been finished already
[2022/04/01, 13:44:02] Tshepang: □üëç□üèø□üëç□üèø
[2022/04/01, 13:46:39] Abelwe Ndiki: Any updates from @27665431841
[2022/04/01, 13:49:36] Thabelo: Also been compiling user stories to merge with those by @27790876913 incase either of us missed something.
[2022/04/01, 13:51:02] Puleng: I'll also need all the user stories for coding perposes
[2022/04/01, 13:57:26] Abelwe Ndiki: Oh okay thanks for the updates everyone so I just want to check what needs to be sent to the group by tonight
1) Updates on the on-screen requirements will be sent by tonight
2) The refinement section of the requirements will be sent to the group during the day for everyone to read and comment on. Hopefully we close off this task by tonight as well.
3) @27633862960 please let us know if you manage to finish your part of the functional requirements at the end of the day.
So may we please get updates on the above things at the end of the day. I believe the rest of the tasks will be completed during the weekend. So we will request an update on those Sun/Mon
If this is cool with everyone. I believe we are done with the daily scrum for the day. Thank you everyone :).
Also this took like 30 minutes. Our fastest meeting yet □ü§£
[2022/04/01, 14:02:29] Abelwe Ndiki: As always, if I missed anything please notify the group.
‚Äé[2022/04/01, 18:18:54] Abelwe Ndiki: ‚Äéimage omitted
[2022/04/01, 18:19:59] Abelwe Ndiki: Implemented the comments that were made on the profile on screen requirements.
So if everyone is satisfied with the on-screen requirements we can move the "on - screen" requirements official to the "Done" list
‚Äé[2022/04/01, 19:55:30] Katlego: Functional Requirements.docx ‚Äédocument omitted
[2022/04/01, 19:56:32] Katlego: I‚Äôm done wit the requirements for the login page. @27740483378 you can do the ones for registration. You guys will let me know if I missed anything
[2022/04/01, 20:19:54] Abelwe Ndiki: Thank you. We will read through it during the weekend
@27728095513 gentle reminder to send through the refined requirements □üòä
[2022/04/02, 23:15:54] Payet : Guys isn't firebase more easier to use than SQL?
‚Äé[2022/04/03, 13:04:27] Payet : Non-functional requirements.docx ‚Äédocument omitted

[2022/04/03, 13:06:00] Payet : I only did a non-functional requirement on security cause I thought maybe we don't need one in performance and other things for now....if anyone wants to add and correct something please do soüôè

,Äé[2022/04/03, 18:36:14] Linge: Business Rules.docx ,Äédocument omitted
[2022/04/04, 11:46:05] Abelwe Ndiki: Morning everyone. Wanted to check what time would be appropriate for the daily scrum meeting as we are writing at 2 pm
[2022/04/04, 12:12:51] Rofhiwa: Lets make it 8:30pm
[2022/04/04, 13:45:15] Puleng: Good luck everyone
[2022/04/04, 13:46:19] Abelwe Ndiki: Good luck people :)
[2022/04/04, 20:15:44] Abelwe Ndiki: Reminder : Daily Scrum in 15 minutes
,Äé[2022/04/04, 20:32:06] Abelwe Ndiki: ,Äéimage omitted
[2022/04/04, 21:27:12] Abelwe Ndiki: I will combine all documents into a single document so we can read through the entire spring and make note where we will need to make changes.
Any updates on the coding part?
[2022/04/04, 21:30:05] Puleng: Was on a halt while I was preparing for test, now working on it
[2022/04/04, 21:30:46] Abelwe Ndiki: Understandableü§£
[2022/04/04, 21:31:36] Abelwe Ndiki: Tamlin said we need to have coded 4-5 user stories, I just wanted to check how many user stories are you coding or will you be coding all 4-5 user stories?
[2022/04/04, 21:33:56] Puleng: Nope I'll need help with the server part, and we haven't really decided on which architecture style we going to use
[2022/04/04, 21:34:44] Rofhiwa: Enough dawg
[2022/04/04, 21:41:27] Abelwe Ndiki: Oh okay cool. Maybe we can hold a meeting tomorrow or Wednesday to sort out the architecture style. I think most people are still recovering from the test
Also thanks for the reminder about the architecture styles, that had completely slipped my mind
[2022/04/04, 21:48:44] Puleng: Cool, we should consider the upcoming test and try to finish ASAP
[2022/04/04, 21:49:20] Puleng: Guess we'll talk later
[2022/04/04, 21:50:25] Abelwe Ndiki: Sorry, which upcoming test?
[2022/04/05, 00:37:53] Puleng: I meant the CGV test next week Tuesday...
[2022/04/05, 00:51:34] Abelwe Ndiki: Oh okay I didn't know. Since most of the people in the group take CGV we should try and wrap everything quickly so that you can focus on CGV during the weekend :)
I have compiled most of the documents stuff that has been sent to the group on a Word Document. I'm still waiting on some parts such as the requirements analysis and the final user stories I think
[2022/04/05, 00:59:43] Puleng: Who's working on the requirements analysis and the final user stories?
[2022/04/05, 01:00:21] Puleng: üòÖ so you doing IS3?
,Äé[2022/04/05, 03:51:08] Puleng: ,Äéimage omitted
,Äé[2022/04/05, 03:52:43] Puleng: ,Äéimage omitted
,Äé[2022/04/05, 03:53:32] Puleng: ,Äéimage omitted
[2022/04/05, 03:54:21] Puleng: Working on the home page, and profile page
[2022/04/05, 08:15:42] Abelwe Ndiki: CAM 3 actually üòÖ
[2022/04/05, 09:52:09] Puleng: üòÖ well I'm definitely getting Honours vibes... You helping on going for CAM4?
[2022/04/05, 09:53:49] Puleng: Are we going discuss our system architectural style at lunch?
[2022/04/05, 09:54:09] Abelwe Ndiki: Not too sure about that üòÖ I just got sent the requirements analysis so I will be adding them to the document during the day :)
[2022/04/05, 09:54:09] Puleng: I meant planning

[2022/04/05, 09:54:42] Abelwe Ndiki: I'm still stuck between coms or cam honors actually □üòÖ
[2022/04/05, 09:55:48] Abelwe Ndiki: I'm free during lunch so if everyone is on board we can have the discussion during lunch. I have a separate meeting at 2pm so I can only be active on the group chat from 13:30 - 14:00
[2022/04/05, 09:58:00] Puleng: Guess the choice will depend on the career path you gonna take after studying...
[2022/04/05, 09:58:54] Puleng: Uhmm the user stories doc is done?
[2022/04/05, 09:59:18] Puleng: □üëç□üèΩ
[2022/04/05, 10:13:06] Abelwe Ndiki: It was sent initially to the group chat. But comments were made so I'm not sure if the feedback has been implemented already
[2022/04/05, 12:08:07] Puleng: ‚ÄéThis message was deleted.
[2022/04/05, 12:09:35] Puleng: Home page is the last one, almost done. Then I'll move to coding user stories then we can talk about architectural approach for this project later
[2022/04/05, 12:12:05] Puleng: I'm also trying to figure out this GitHub repository stuff coz I'm getting errors when I commit.
‚Äé[2022/04/05, 12:55:21] Puleng: ‚Äéimage omitted
[2022/04/05, 12:56:01] Abelwe Ndiki: Thanks for the updates @27712636997 :)
‚Äé[2022/04/05, 13:34:02] Abelwe Ndiki: VirtualVelocity_Sprint1_v1.docx ‚Äédocument omitted
[2022/04/05, 13:37:12] Abelwe Ndiki: Just missing the finalized user stories. May everyone please read through it when they get time
[2022/04/05, 13:37:43] Abelwe Ndiki: So in today's daily scrum we need to decided on an architecture style.
[2022/04/05, 13:48:47] Abelwe Ndiki: Okay I going to need to go to another meeting soon but I think we could use a Client-Server architectural style. Everyone please drop your suggestions when you come online so we can make a decision.
I just wanted to also check, was the creation of the database assigned to anyone @27712636997 and @27640960622 mentioned that we need it for Sprint 1 as well.
[2022/04/05, 13:54:34] Rofhiwa: Yes I am working on it, I‚Äôll give details when I‚Äôm done with it
[2022/04/05, 13:55:17] Tshepang: wait , im still adding on the functional requirements , they not complete, I think
[2022/04/05, 13:59:49] Puleng: A multi tier architecture (3 tier model) : presentation tier(UI)- I'm done with this part for sprint 1; application tier(logic tier)- @@Charles working on it, but anyone can tag in; Data tier(DBMS)- @27790876913 working on it
[2022/04/05, 14:00:37] Rofhiwa: That would be helpful
[2022/04/05, 14:01:44] Abelwe Ndiki: Oh no problem :) ‚ú®
‚Äé[2022/04/05, 14:16:18] Puleng: ‚Äéimage omitted
[2022/04/05, 14:17:04] Puleng: I just added everyone, hopefully we can be done by Thursday (complete code)
[2022/04/05, 14:31:29] Payet : Would try and help @27790876913
[2022/04/05, 14:58:00] Rofhiwa: Khezwo
‚Äé[2022/04/05, 19:00:48] Thabelo: User stories.docx ‚Äédocument omitted
[2022/04/05, 19:02:27] Thabelo: @27790876913 , please change were it's wrong.
[2022/04/05, 19:34:23] Abelwe Ndiki: Will add this to the document :)
[2022/04/05, 19:55:51] Rofhiwa: They‚Äôre awesome □üíØ
[2022/04/05, 20:39:57] Abelwe Ndiki: Finished adding the user stories and the user acceptance test to the doc.

Quick question, should we have a section in the document as well that speaks to our chose architectural style, why we chose it and how it's being implemented?
[2022/04/05, 21:13:44] Linge: I think that's a good idea
[2022/04/05, 21:21:11] Abelwe Ndiki: Oh okay cool. Thanks for the comment :)
‚Äé[2022/04/05, 21:38:10] Tshepang: Functional Requirements.docx ‚Äédocument omitted
[2022/04/05, 21:39:10] Tshepang: @27633862960 please check and correct my mistakes , i did something different there .
[2022/04/05, 21:39:22] Tshepang: Sorry for taking too long everyone.
[2022/04/05, 21:46:43] Abelwe Ndiki: No problem :)
[2022/04/06, 13:03:27] Katlego: Okay cool
[2022/04/06, 13:43:02] Sandile: If anyone hasn‚Äôt done this, I‚Äôll do it.
[2022/04/06, 15:24:09] Payet : Is there anyone who tried logging in to the Wits SQL server and went in cause we can't log in on our side
‚Äé[2022/04/06, 15:27:51] Payet : ‚Äéimage omitted
[2022/04/06, 15:43:41] Abelwe Ndiki: I haven't
[2022/04/06, 15:44:25] Payet : Eix so are we allowed to use firebase?
[2022/04/06, 16:15:09] Sandile: I just asked someone from another group and they used fire base
[2022/04/06, 16:15:49] Payet : Okay thank you
[2022/04/06, 16:32:22] Payet : @27712636997 we gonna need the log in page and the register one to create the database
[2022/04/06, 16:35:17] Rofhiwa: Upload the project on git
[2022/04/06, 17:21:06] Puleng: I think it doesn't matter what we use for the server, as long as it works(the app).
[2022/04/06, 17:30:14] Puleng: Wait so you didn't get the notification about our project on GitHub?
[2022/04/06, 18:06:40] Payet : There's nothing in there maybe I forgot to accept the invitation and when I click on it now it has expired
[2022/04/06, 18:08:04] Puleng: Okay I'll make the repository public
[2022/04/06, 18:08:45] Sandile: I also didn‚Äôt get a notification‚Ä¶
[2022/04/06, 18:08:49] Payet : Okay sure
[2022/04/06, 18:09:46] Abelwe Ndiki: I also didn't get a notification
[2022/04/06, 18:09:57] Puleng: Search for our group name on GitHub to get it...
[2022/04/06, 18:10:13] Puleng: It's public
‚Äé[2022/04/06, 18:18:59] Puleng: ‚Äéimage omitted
[2022/04/06, 18:19:42] Puleng: That's the name on the bottom
[2022/04/06, 18:19:43] Abelwe Ndiki: Cool
[2022/04/06, 19:01:16] Puleng: I think I might be done with UI & application tier by Tonight. Leaving the data tier to @27640960622 and @27790876913
[2022/04/06, 19:01:47] Puleng: Done with connecting the pages, working on user stories code
[2022/04/07, 04:52:04] Puleng: ‚ÄéThis message was deleted.
[2022/04/07, 04:54:01] Puleng: So guys I just finished my part or what I promised to do. You can find our project on my github repository(PulengAlvi/witsoverflow_2213773) @27640960622 & @27790876913 would finish of the last of the project on the github project that I made recently. peace□ü•±

‚Äé[2022/04/07, 05:16:30] Puleng: ‚Äéimage omitted
‚Äé[2022/04/07, 05:16:31] Puleng: ‚Äéimage omitted

[2022/04/07, 10:31:44] Abelwe Ndiki: Just an update. The document has been finished including the information about the architectural style. It's 8 pages in total will send it through in a bit so everyone can read through it when they have some time
‚Äé[2022/04/07, 10:33:30] Abelwe Ndiki: VirtualVelocity_Sprint1_Final_Preview.pdf ‚Äédocument omitted
[2022/04/07, 11:38:41] Katlego: Please add the complete version of the functional requirements which @27740483378 sent
[2022/04/07, 11:39:18] Abelwe Ndiki: Cool. Must have missed it. Will make the additions
[2022/04/07, 11:58:39] Rofhiwa: Awe
[2022/04/07, 11:59:41] Katlego: □ü§ù
[2022/04/07, 17:31:05] Abelwe Ndiki: The client says that he only has time to meet with us Tomorrow after 2 pm. He will be unavailable during the weekend and I think next week.
[2022/04/07, 19:02:44] Abelwe Ndiki: Hey double checked this. I did add these functional requirements. I add them in the table next to the user stories
[2022/04/07, 19:39:51] Katlego: Oh alright
[2022/04/07, 19:54:52] Abelwe Ndiki: Is there any time that you guys would like to meet so I can schedule the meeting.
Just to touch base is there anything that's still being finalized with regards to the project?
[2022/04/07, 20:29:48] Rofhiwa: We working on connecting the database
[2022/04/07, 20:50:39] Abelwe Ndiki: Okay no problem :)
[2022/04/07, 20:50:55] Abelwe Ndiki: Is there any preferred time for the meeting?
[2022/04/07, 21:17:03] Rofhiwa: How about lunch?
[2022/04/07, 21:21:42] Abelwe Ndiki: He specifically said after 2pm, so 14:15?
It has to be a time everyone is available, he was not impressed by the fact that not everyone was present during the initial meeting
[2022/04/07, 21:27:17] Rofhiwa: 14:15 is good for me
[2022/04/08, 08:51:37] Abelwe Ndiki: Okay everyone has seen the text, so I will schedule the meeting at 14:15 today.
May everyone please make a Taiga account in the mean time and send me your user's names cause I created the scrum board.
[2022/04/08, 08:53:25] Abelwe Ndiki: May everyone avail themselves cause we get penalized for not all being present during these meetings
[2022/04/08, 09:02:46] Sandile: sandile-n
[2022/04/08, 09:02:55] Sandile: Alright
[2022/04/08, 09:11:21] Abelwe Ndiki: May I please have your email addresses as well
[2022/04/08, 10:35:21] Payet : Personal or the Student one?
[2022/04/08, 10:36:35] Abelwe Ndiki: Which ever you would prefer I believe. You can send it personally to me if you don't want the info on the group chat
[2022/04/08, 10:37:30] Payet : Can someone please help @27790876913 finish with the database I'm too sick this side and the deadline is here□ü§ßI'm sorry guys
[2022/04/08, 10:38:16] Payet : Okay
[2022/04/08, 10:39:14] Abelwe Ndiki: I am in the process of doing the minutes for our daily scrum cause I was told that we need to have those ready for the sprint review. I'm also trying to upload all the relevant documentation on Github and Taiga since they will be checked as well. I'm trying to wrap everything up so we don't get point deductions for small admin things but the finalizing of everything is a bit tense so I would appreciate feedback on the group and everyone communicating.

@27640960622 we don't have the have everything finalized for the meeting so if the database isn't completely done, we can let them know what has been done and what will be done over the weekend.
We need someone to demo the app during the teams meeting
[2022/04/08, 10:41:37] Payet : Okay perfect...can you please do the demo for us @27712636997 ?
[2022/04/08, 11:07:46] Abelwe Ndiki: Sent everyone an invite to Taiga. Please do create an account before the meeting
I send the invites to the students emails except @27640960622 I sent that to your personal acc
[2022/04/08, 11:20:50] Abelwe Ndiki: @27712636997 may you please give everyone access rights to the code as we are unable to comment
[2022/04/08, 11:28:43] Puleng: Cool
[2022/04/08, 11:30:59] Puleng: Wait can you see it or download it?
[2022/04/08, 11:32:21] Abelwe Ndiki: I personally can access the code, I tried to comment something and it didn't save or record that comment. @27728095513 mentioned that he tried to comment something and struggled as well
[2022/04/08, 11:36:39] Abelwe Ndiki: So please grant us access to be able push on the repository. I'm struggling to upload the proof of the daily scrum meetings as a result
[2022/04/08, 11:39:20] Puleng: Working on it
[2022/04/08, 11:50:22] Abelwe Ndiki: Cool cool.
[2022/04/08, 11:51:21] Abelwe Ndiki: I created a README file on Github containing the project info. I don't think it's reflecting cause I didn't have push access so one you have granted everyone push access please double check if the file is appearing
[2022/04/08, 12:00:14] Puleng: I'm having an issue, I don't see any option to fix this problem.
[2022/04/08, 12:02:05] Abelwe Ndiki: Side note going to drop alot of information updates
1) Sent out the invites for Taiga (need everyone to accept ASAP)
2) Uploaded the daily scrum meetings on Taiga
3) Created the backlogs
4) Wiki discription is currently being done by @27728095513
5) Updates of the process of the user stores on the scrum board is currently being done
[2022/04/08, 12:02:57] Abelwe Ndiki: The acceptance criteria for the use stories has also been done on Taiga
[2022/04/08, 12:03:10] Abelwe Ndiki: Maybe try to add collaborators
[2022/04/08, 12:03:49] Puleng: It's public so it doesn't give me any option to add collaborators
[2022/04/08, 12:05:15] Abelwe Ndiki: Can you pull the commits that have been made so far, we will have to sort everything out after the sprint review but it will not look good if only one person has worked on the code
[2022/04/08, 12:06:20] Puleng: ‚ÄéThis message was deleted.
[2022/04/08, 12:08:30] Abelwe Ndiki: I'm not near my laptop at the moment cause I'm rushing to a meeting
In the mean time please create the Readme file, add the information about the project you can get the info straight from the project outline and mention that we are using Java
[2022/04/08, 12:09:01] Puleng: üëç üèΩ
[2022/04/08, 12:09:12] Abelwe Ndiki: Change the repository to private, go to repo settings and add everyone as collaborators
[2022/04/08, 12:17:04] Puleng: About the demo, which software can I use or how should I make it coz I'm running out of time trying to fix the repository issue

[2022/04/08, 12:17:19] Puleng: Can someone else do the demo?
[2022/04/08, 12:20:34] Puleng: ‚ÄéThis message was deleted.
[2022/04/08, 13:05:32] Linge: I'll help him
[2022/04/08, 13:06:48] Abelwe Ndiki: Will anyone be able to demo the project cause that's one of the most important issues
[2022/04/08, 13:26:17] Katlego: I‚Äôm having an isssue opening the project on android studio
[2022/04/08, 13:34:01] Abelwe Ndiki: Guys I really need someone to sort out this demo thing ASAP. I am able to upload things on Github now, thanks @27712636997 I am in the process of uploading the documents
[2022/04/08, 13:37:06] Linge: I'm having trouble finding the project on github, where can i find it?
[2022/04/08, 13:37:35] Rofhiwa: Click on the link puleng sent
[2022/04/08, 13:38:12] Linge: Which link?
[2022/04/08, 13:41:05] Katlego: Guys I don‚Äôt think I‚Äôll be able to do the demo in time, my Android Studio is still downloading the SDK and it‚Äôs moving slowly
[2022/04/08, 13:44:53] Abelwe Ndiki: Someone please send me the documents for the app via whatsapp, the part I need to load onto Android Studio and run quickly
[2022/04/08, 13:48:03] Rofhiwa: It should be on your email
[2022/04/08, 13:48:33] Abelwe Ndiki: Was an email sent containing the app?
[2022/04/08, 13:49:33] Abelwe Ndiki: Can everyone try to prepare the demo please
[2022/04/08, 13:50:54] Linge: I got it
‚Äé[2022/04/08, 13:52:11] Katlego: witsoverflow_2213773-master.zip ‚Äédocument omitted
[2022/04/08, 13:53:35] Rofhiwa: So he‚Äôs expecting us to be done with everything by today?
[2022/04/08, 13:54:15] Abelwe Ndiki: The demo, the app should work
[2022/04/08, 13:56:02] Abelwe Ndiki: I really need someone to set up this demo I'm not being successful unfortunately
[2022/04/08, 13:56:34] Puleng: ‚ÄéThis message was deleted.
[2022/04/08, 13:57:34] Linge: I'm having a trouble opening it on android studio
[2022/04/08, 13:58:15] Abelwe Ndiki: @27712636997 had you previously tested it on a phone and checked that it works?
[2022/04/08, 14:00:46] Puleng: the screenshots i sent were from my phone
[2022/04/08, 14:01:10] Abelwe Ndiki: Did you uninstall it from your phone already?
[2022/04/08, 14:01:43] Puleng: i just updated the layout so it can adjust to different type of phone screens
[2022/04/08, 14:02:06] Puleng: yep i uninstalled it
[2022/04/08, 14:02:38] Abelwe Ndiki: Do you still have the apk file on your phone!
[2022/04/08, 14:02:41] Abelwe Ndiki: ?
‚Äé[2022/04/08, 14:03:29] Linge: ‚Äéimage omitted
[2022/04/08, 14:03:42] Puleng: nop lemme install it again
[2022/04/08, 14:06:00] Abelwe Ndiki: Okay we will probably have to present without the demo because we don't have time to debug
[2022/04/08, 14:12:56] Abelwe Ndiki: Might be a little bit late had to restart my laptop cause android studio slowed it down
[2022/04/08, 14:16:01] Abelwe Ndiki: May everyone please join the meeting
[2022/04/08, 14:18:02] Puleng: It's working work
‚Äé[2022/04/08, 14:20:24] Puleng: base.apk ‚Äédocument omitted
[2022/04/08, 14:21:32] Abelwe Ndiki: Will you be able to demo it?

[2022/04/08, 14:22:07] Puleng: okay but how that's what i'm tryna get my head around
[2022/04/08, 14:22:51] Abelwe Ndiki: You will switch on your camera and use the app
[2022/04/08, 14:32:14] Katlego: Sorry I joined late guys, I didn't know @27734843407 had already sent the link
[2022/04/08, 14:43:39] Sandile: Hey guys I‚Äôm gonna have to head out soon I have a test at 15:00
[2022/04/08, 14:45:41] Abelwe Ndiki: Please drop a message on the meeting when you're about to leave
[2022/04/08, 14:46:05] Payet : Sure
[2022/04/08, 14:46:47] Abelwe Ndiki: Thanks for sharing your screen @27712636997
[2022/04/08, 18:21:18] Puleng: So guys can somebody do classes that handles the server communication, request and stuff like that...
[2022/04/08, 18:22:32] Puleng: You can go to MC(2nd yr, 1st semester) the cars lab and use it as an example.
[2022/04/08, 18:24:38] Rofhiwa: ‚ÄéThis message was deleted.
‚Äé[2022/04/08, 20:13:18] Rofhiwa: ‚Äéaudio omitted
[2022/04/08, 20:13:48] Rofhiwa: This might get useful
[2022/04/08, 21:42:40] Linge: The app keeps crashing on this pc (i think it's because of the update) so we are thinking that we'll create the firebase database and someone else will integrate it
[2022/04/08, 21:46:51] Puleng: What's the error you getting coz the update is the same code I was presenting earlier during the meeting
[2022/04/08, 21:47:30] Linge: It has no errors it just crashes, let me send a video
‚Äé[2022/04/08, 21:48:08] Linge: ‚Äévideo omitted
[2022/04/08, 21:49:37] Puleng: There's something wrong with the intent object of that activity
‚Äé[2022/04/08, 21:49:45] Linge: ‚Äéaudio omitted
[2022/04/08, 21:51:32] Puleng: Lemme just send you the project, for now delete that one, keep the code you added so you can copy n paste.
‚Äé[2022/04/08, 21:53:43] Puleng: witsoverflow.zip ‚Äédocument omitted
[2022/04/08, 22:06:51] Puleng: Is everyone having a problem while committing to the repository? Coz I think everyone must commit/contribute to the code...
‚Äé[2022/04/09, 02:26:32] Rofhiwa: ‚Äéaudio omitted
‚Äé[2022/04/09, 02:31:28] Linge: ‚Äéaudio omitted
[2022/04/09, 02:32:55] Payet : Even me poi....I try it kept on giving me errors
[2022/04/09, 15:14:55] Katlego: I‚Äôll help you guys with the database so we can finish in time
[2022/04/09, 16:53:49] Rofhiwa: Thanks
[2022/04/09, 19:41:22] Rofhiwa: Guys my android studio is not loading the project and as a result I cant intergrate the database with the app, I tried applying the fixes I found online but the issue still persists I even reinstalled android studio but still the same so I wanted to ask anyone who got the app to run perfectly on their android studio to intergrate the database with the app
[2022/04/10, 11:03:00] Abelwe Ndiki: Morning everyone. I was unavailable yesterday. I just wanted to check if you came right with the problem with the database?
[2022/04/10, 12:13:58] Rofhiwa: The database is fine, but we have to code how to interact with it in android studio
[2022/04/10, 12:52:51] Abelwe Ndiki: Okay. I'm not sure I can be of any assistance in this regard truly üòÖ

Just a slight update on my side. About the fact that Tristan said we must also check if the password entered has an Uppercase, Number and Special Characters. I have found code to check for this
I have commented the code to check if an uppercase is present. I will run the code during the day to check if it works and I haven't messed up the existing code
[2022/04/10, 12:53:28] Abelwe Ndiki: Side note: I able to comment on the repository, is anyone still struggling when it comes to commenting?
[2022/04/10, 13:00:30] Rofhiwa: Are you able to run the app in your android studio?
[2022/04/10, 13:38:55] Abelwe Ndiki: Will try during the day, I had problems that last time I tried to run it unfortunately
[2022/04/10, 15:09:55] Abelwe Ndiki: If someone still does not have access to the repository / can't comment please send me your usernames
[2022/04/10, 21:28:10] Abelwe Ndiki: I can't run the app on my android studio as well. I will try and update my Android Studio in the mean time
[2022/04/11, 08:53:48] Katlego: Guys I won‚Äôt make it to the sprint marking because I‚Äôm sick
[2022/04/11, 11:08:30] Abelwe Ndiki: Thanks for the update. Ahead of the sprint marking can some try to get the app running on their phones. There were some changes made over the weekend. I tried running it yesterday and I couldn't compile on my laptop
[2022/04/11, 11:09:53] Payet : When was it updated cause I see here the last commit was 3 days ago
[2022/04/11, 11:10:26] Abelwe Ndiki: There were updates made yesterday I believe.
[2022/04/11, 11:11:33] Abelwe Ndiki: I'm going to try and get to a computer and see what's happening. Cause I coded those checks in the password to see if the password has an Uppercase, and @27728095513 coded to check if the password entered has a number
[2022/04/11, 11:14:16] Linge: It still won't run on my pc
[2022/04/11, 11:32:38] Abelwe Ndiki: Morning. I think something must have happened when @27712636997 made me a collaborator. If you go to my profile on Github, abelwen, the project is there in my repository with the newest updates
[2022/04/11, 11:37:48] Payet : Saw it....in the non requirements documents I think we said the length of the password should be not less than 8üò§
[2022/04/11, 11:38:25] Abelwe Ndiki: Wait @27640960622 are you able to see the most recent changes?
[2022/04/11, 11:38:36] Payet : It's fine if I can just change the 4 to 8?üòÖit won't mess up everything?
‚Äé[2022/04/11, 11:38:59] Payet : ‚Äéimage omitted
[2022/04/11, 11:39:22] Abelwe Ndiki: Please do. So that the number of people who have commented on the repository also increasesü§£
[2022/04/11, 11:39:34] Abelwe Ndiki: Great! I was arrived I messed something up üò≠ü§£
[2022/04/11, 11:42:25] Payet : Perfectüòπ
[2022/04/11, 12:01:50] Abelwe Ndiki: Hey did you guys come right with the database integration?
[2022/04/11, 12:18:07] Abelwe Ndiki: All the front end aspect for the user stories are completed, but unless we can figure out how to integrate those databases then we cannot say that our user stories are done. That means the only user story that is done is The Profile Page and the Home Page
[2022/04/11, 12:27:09] Abelwe Ndiki: The database is coded using MySQL right?
[2022/04/11, 12:36:23] Payet : I think they were using firebase

[2022/04/11, 12:38:30] Linge: Yeah we were using firebase but it needed the code to work to integrate it
[2022/04/11, 12:40:25] Abelwe Ndiki: Is there anyone that you know that used Firebase?
[2022/04/11, 12:44:50] Linge: I think before Payet got sick hin and rofhiwa couldn't get access to the wits server that's why they decided to use firebase, I'm not sure if they know anyone
[2022/04/11, 12:54:31] Rofhiwa: I personally don‚Äôt know anyone but I think @27633862960 knows someone
[2022/04/11, 13:02:42] Abelwe Ndiki: Do they still have the MySQL database that thy initially did?
[2022/04/11, 13:07:15] Abelwe Ndiki: Me and @27728095513 are working on the code. All the changes we made work. We need people to comment on the code so that we atleast gain marks for everyone commenting on Github.
[2022/04/11, 13:08:25] Rofhiwa: We couldn‚Äôt create a mysql database but @27712636997 said he might integrate it with the database yesterday I donno if he ended up doing so
[2022/04/11, 13:09:08] Abelwe Ndiki: Things that still need to me coded
In the sign up page for the password entered
* It needs to be 8 letters or more (it currently only checks if the are 4 or more)
* It needs to check if there is a character present.
If 2 different people can make these comments it will take the number of contributors from 3 to 5
[2022/04/11, 13:11:28] Abelwe Ndiki: It takes about 10 minutes so whoever can quickly do that may you please send me your usernames so I can add you as contributors quickly
‚Äé[2022/04/11, 13:12:40] Abelwe Ndiki: ‚Äéimage omitted
[2022/04/11, 13:13:17] Payet : I did change it...but nothing changed there
[2022/04/11, 13:13:33] Abelwe Ndiki: Okay send me your username quickly
[2022/04/11, 13:13:41] Payet : payet10
[2022/04/11, 13:15:56] Tshepang: xhepan
[2022/04/11, 13:16:14] Rofhiwa: Rofhiwa67
[2022/04/11, 13:19:23] Sandile: Please accept the request asap
[2022/04/11, 13:19:35] Abelwe Ndiki: And then rewrite the code @27640960622
[2022/04/11, 13:21:24] Sandile: code->app->src->main->java/com‚Ä¶
[2022/04/11, 13:21:32] Linge: @Lingedzani
[2022/04/11, 13:21:46] Sandile: To edit press the pencil icon at the right hand corner
[2022/04/11, 13:22:26] Abelwe Ndiki: It's not popping up
[2022/04/11, 13:23:35] Abelwe Ndiki: May everyone please quickly make the comments I suggested and make sure that the code still works fine after they are done coding it.
Me and @27728095513 are stepping away from the labs for a second
[2022/04/11, 13:23:48] Thabelo: TRJMajika
[2022/04/11, 13:24:14] Payet : I commented
[2022/04/11, 13:24:31] Abelwe Ndiki: It's reflected. Thanks
[2022/04/11, 13:24:54] Payet : Perfect let me add the other comments I made earlier on
[2022/04/11, 13:25:05] Puleng: It took me the whole night to learn, correct errors & stuff but it finally worked around 10am this morning...
[2022/04/11, 13:25:19] Linge: I just followed you try using that
[2022/04/11, 13:25:47] Abelwe Ndiki: So will the database be integrated?
[2022/04/11, 13:26:31] Puleng: Yeah, but I only did the log in n register activity only..

[2022/04/11, 13:27:00] Abelwe Ndiki: No problem. May you please quickly integrate those with the code on Github so we can officially close off those user stories
[2022/04/11, 13:27:21] Payet : Sure in a minute
[2022/04/11, 13:27:32] Puleng: Who say the code for checking if password is 10 digits?
[2022/04/11, 13:28:13] Abelwe Ndiki: May one of the people that have recently been contributors add @27637128758 as a collaborator as well I have already stepped away from my PC
[2022/04/11, 13:29:19] Abelwe Ndiki: Hey :) I'm not really understanding your question may you please phrase it differently
[2022/04/11, 13:30:27] Payet : How does this pull request thing works?
[2022/04/11, 13:30:46] Puleng: I might be late for the marking ☐üòÇ, it all depends if I fix other stuff on the code or get ready now so I don't know. I haven't commented on all the code
[2022/04/11, 13:31:27] Abelwe Ndiki: Your comments are there on the code. Like all the coding that you did still appears there
[2022/04/11, 13:32:30] Abelwe Ndiki: I think this only applies if you're not a contributor but if you have been made a contributor you can just commit
[2022/04/11, 13:33:28] Payet : Ohh yeah cause I did send you a pull request 2 hours ago and nothing happened
[2022/04/11, 13:34:42] Payet : On my side it keeps on saying my code is 1 comment ahead of your code
[2022/04/11, 13:34:52] Abelwe Ndiki: Yeah ☐üòÖ
[2022/04/11, 13:38:36] Abelwe Ndiki: Yes. You made 5 comments I believe and I made 4
[2022/04/11, 13:39:12] Payet : Yeah..did you accept the pull request?
[2022/04/11, 13:40:46] Abelwe Ndiki: I think you were already a contributor so you should be able to make a comment.
If it's not working, may someone else make @27640960622 a contributor quickly
You go to the repository, settings, contributor, add, his username
[2022/04/11, 13:53:16] Tshepang: just made character validation but it don't show .
[2022/04/11, 13:53:22] Abelwe Ndiki: If anyone is on campus, please let me know
[2022/04/11, 13:54:03] Abelwe Ndiki: Please send someone your username so it can be added to the repository
[2022/04/11, 13:54:34] Tshepang: Already added
[2022/04/11, 13:54:50] Abelwe Ndiki: Cool cool :)
[2022/04/11, 14:07:33] Tshepang: can't test the code so please someone test it .
[2022/04/11, 14:10:29] Abelwe Ndiki: @27712636997 were you able to integrate?
[2022/04/11, 14:21:21] Abelwe Ndiki: I'm outside 005 if anyone Is around
[2022/04/11, 14:21:55] Thabelo: Please can someone add me as contributornon sandile, it seems I've been working on puleng instead of sandile.
[2022/04/11, 14:22:33] Payet : 2 mins away
[2022/04/11, 14:24:20] Abelwe Ndiki: Done
[2022/04/11, 14:24:45] Puleng: Where are you guys?
[2022/04/11, 14:30:51] Abelwe Ndiki: We're inside 006
[2022/04/11, 14:31:14] Payet : Sure
[2022/04/15, 14:09:24] Abelwe Ndiki: Afternoon everyone. Please let me know if it will be possible to have our Sprint 2 planning over the weekend or on Monday
[2022/04/15, 14:19:26] Linge: I'm okay with the weekend

[2022/04/15, 15:42:58] Sandile: Same
[2022/04/16, 08:38:09] Abelwe Ndiki: Will 2:30 pm work for everyone?
[2022/04/16, 08:38:15] Abelwe Ndiki: Today
[2022/04/16, 11:42:03] Sandile: Fine with me
[2022/04/16, 13:16:14] Payet : Fine with me too
[2022/04/16, 14:05:14] Katlego: I‚Äôm also okay with 2:30
[2022/04/16, 14:05:25] Rofhiwa: Me too
[2022/04/16, 14:33:03] Abelwe Ndiki: May everyone pull up the rubric in the mean time :)
[2022/04/16, 14:35:54] Payet : Sure
[2022/04/16, 14:37:40] Linge: Got it
[2022/04/16, 14:37:56] Rofhiwa: Even me
[2022/04/16, 14:39:22] Abelwe Ndiki: So here's a run down of what we need to do for Sprint 2.
1) Requirements Analysis for the new user stories we got for the second sprint. We will add them to the existing document.
2) Software Architecture and Design (We need a high level outline on Github via Wiki and we need to include all viewpoints in the Requirements Analysis Document)
3) We need to code all the user stories
4) For the continuous integration we need to get the CI badges and integrate them on Github
5) Test Driven Development (Integrate CI with Github)
[2022/04/16, 14:40:47] Abelwe Ndiki: I think in the essence of time. For the requirements analysis document, if everyone can handle the same part as they did for the first Sprint and send through the information by Tuesday, we can move on from documentation and focus on coding. Would everyone be cool with this?
[2022/04/16, 14:41:22] Abelwe Ndiki: May someone please drop a list of the user stories we need to do for Sprint 1. I'm not finding my notes at the moment from the meeting
[2022/04/16, 14:41:45] Payet : I think that's perfect
[2022/04/16, 14:41:55] Sandile: I‚Äôm okay with this. I will also do the wiki outline on GitHub
[2022/04/16, 14:42:02] Linge: I'm cool with that too
[2022/04/16, 14:42:18] Rofhiwa: Sounds good
[2022/04/16, 14:42:54] Thabelo: Yes.
[2022/04/16, 14:42:58] Abelwe Ndiki: Great!
[2022/04/16, 14:43:04] Katlego: Sure
‚Äé[2022/04/16, 14:43:59] Sandile: ‚Äéimage omitted
[2022/04/16, 14:44:12] Abelwe Ndiki: Thank you :)
[2022/04/16, 14:45:37] Abelwe Ndiki: There were user stories we could not mark as finished in the first sprint because we struggled with the database.
Those user stories get carried over to Sprint 2.
Therefore, for Sprint 2 we need to fully code the user stories we couldn't quite finish off in Sprint 1, and the user stories the client gave us for Sprint 2.
Does everyone understand?
[2022/04/16, 14:46:10] Sandile: Understood
[2022/04/16, 14:47:13] Abelwe Ndiki: Okay. So before we decide who will be coding what for sprint 2, may we please get some updates on whether we were able to integrate the database?
[2022/04/16, 14:48:07] Puleng: I'll take care of the coding, & be done by next week Friday, then everyone can commit on a working app, add comment or improvements
[2022/04/16, 14:49:12] Abelwe Ndiki: Which coding are you referring? The database for the login and registration user stories?

[2022/04/16, 14:50:11] Puleng: For everything needed, anyone can tag in for help
[2022/04/16, 14:51:05] Linge: I got you
[2022/04/16, 14:51:39] Abelwe Ndiki: Okay, I'm not sure if they will work because when they check the insights they need to see that we call coded somewhat equally instead of one person coding the whole thing.
I think we can assign user stories and then people can ask you for help if they get stuck with the code..
[2022/04/16, 14:52:29] Abelwe Ndiki: Argh, sorry for the typos but I'm sure you get what I'm saying ü§£
[2022/04/16, 14:53:28] Rofhiwa: I think this is better because if you don‚Äôt do anything github shows
[2022/04/16, 14:53:49] Sandile: Alright that sounds reasonable.
[2022/04/16, 14:54:13] Abelwe Ndiki: Yeah, and we need to make sure that we don't lose marks again because of not everyone commenting/coding.
[2022/04/16, 14:54:21] Sandile: Exactly
[2022/04/16, 14:54:43] Sandile: Can we compare notes from the sprint review
[2022/04/16, 14:54:52] Abelwe Ndiki: Can I just check if the database integration is complete and working?
[2022/04/16, 14:55:21] Abelwe Ndiki: I have pretty much the same user stories as well
[2022/04/16, 14:56:12] Puleng: I'll get back to later about that
[2022/04/16, 14:56:22] Abelwe Ndiki: Okay no problem :)
[2022/04/16, 14:57:54] Abelwe Ndiki: Can I kindly ask for everyone to figure out how to get those Travis-CI badge and those code coverage badges that the tutor was talking. If we could tick those off as done by this upcoming Friday that would be great!
[2022/04/16, 14:58:12] Abelwe Ndiki: Can we now move onto assigning the user stories?
[2022/04/16, 14:59:26] Sandile: Alright cool. And the marking the tutor suggested that we use an mcv model, thoughts ?
[2022/04/16, 14:59:31] Sandile: Okay.
[2022/04/16, 15:00:47] Abelwe Ndiki: Oh yes! This slipped my mind actually. If we decide to move to a mcv, who ever was responsible for software architecture write up for Sprint 1 will have to go back and change it
[2022/04/16, 15:02:06] Abelwe Ndiki: So what does everyone think about what the tutor said about changing the software structure to mcv?
[2022/04/16, 15:05:51] Linge: I feel like if it's not necessary and will be somewhat of an inconvenience we shouldn't change but if it's a must we can and redo the write up for sprint 1
[2022/04/16, 15:07:04] Abelwe Ndiki: Okay so let's hold off on changing this software architecture and we will circle back to this.
With the Sprint 2 users stories, I'm cool working on the creating a post (Front-end)
[2022/04/16, 15:08:30] Sandile: Okay cool
Sure, I‚Äôll join you on that
[2022/04/16, 15:09:24] Abelwe Ndiki: Cool. Then we will create the front end when it comes to making a post.
Quick question for the group, the back-end for creating a post would involve a database right?
[2022/04/16, 15:15:08] Rofhiwa: Yeah but I feel like it would be better if you work on both front end and back end for whichever story you working on because integrating with a database wouldn‚Äôt be many lines of code if you already have the front end
[2022/04/16, 15:16:43] Abelwe Ndiki: Cool cool. Then @27728095513 and myself will working on creating a post, both front and back end.

Once you managed to integrate the database for the login and registration @27712636997 please share it with the group as it might help everyone code their individual user stories.
[2022/04/16, 15:17:33] Puleng: □üëç□üèΩ
[2022/04/16, 15:17:34] Sandile: Makes sense.
[2022/04/16, 15:17:47] Rofhiwa: I think I can work on listing the posts on the homepage
[2022/04/16, 15:18:36] Abelwe Ndiki: We need people to work on the remaining user stories. So you can drop a text about which user story you feel comfortable doing and then person you would like to work with or if you prefer to work individually
[2022/04/16, 15:19:10] Linge: Can i help you with this?
[2022/04/16, 15:20:35] Katlego: I,Äôll working on sorting
[2022/04/16, 15:20:43] Katlego: Work*
[2022/04/16, 15:20:44] Abelwe Ndiki: @27790876913 since you will be working on listing the posts on the homepage and me and Sandile are working on creating the posts, that means we are accessing the same database right?
[2022/04/16, 15:21:00] Rofhiwa: Yeah
[2022/04/16, 15:21:14] Rofhiwa: Yeah
[2022/04/16, 15:21:23] Payet : Yeah
[2022/04/16, 15:21:37] Linge: Awe
[2022/04/16, 15:22:16] Rofhiwa: I,Äôll give you all access to the database, should I send the invites on your student emails or ,Ä¶?
[2022/04/16, 15:22:30] Abelwe Ndiki: Okay cool. Then @Sandile and myself will communicate with you and @27637128758 if we have any problems
[2022/04/16, 15:22:57] Linge: Bet
[2022/04/16, 15:23:01] Abelwe Ndiki: Will send you my personal email in a bit :)
[2022/04/16, 15:23:13] Rofhiwa: Cool
[2022/04/16, 15:23:16] Puleng: Another database of posts have to be created, so no need to wait for sprint 1's user stories to be done.
[2022/04/16, 15:23:47] Abelwe Ndiki: Understood.
[2022/04/16, 15:24:16] Abelwe Ndiki: Will you be able to do this on your own?
[2022/04/16, 15:27:24] Abelwe Ndiki: We need someone to pick up the "voting" user story as well.
I'm going to be unavailable from 15:30pm. Will be able to read message but might take time for me to respond.
I have assessments this week so I might take time to respond/send texts out.
The daily scrum meeting for Monday -Tuesday
May everyone provide updates on the progress of their respective documentation and how far they are when it comes to coding their user stories.
[2022/04/16, 15:29:12] Katlego: If someone wants to help I,Äôm cool with it
[2022/04/16, 15:30:03] Abelwe Ndiki: Also I am aware that we had a lot of problems with commenting on the same repository for Sprint 1. I will check on Github which has the most recent version of the application and send it through to the group chats to ensure that once we start coding we are working on the same repository.
If I delay to send you this info my Tuesday, just shoot me a text ,ú®
[2022/04/16, 15:33:07] Thabelo: Can do the voting.
[2022/04/16, 15:33:18] Abelwe Ndiki: Okay, if someone wants to with @27633862960 you will shoot a text on the group so I will update my notes on what each person is doing for Sprint 2.

If you have a user story that does not require alot of coding. Shoot me a text, outside of the documentation, we need to also put everything up on Taiga and this is actually a lot of work. @Sandile and myself worked on it for Sprint 1,but assistance would be appreciated for Sprint 2. That's it from me :)
We can have our next meeting on Monday if that works for everyone
[2022/04/16, 15:33:36] Abelwe Ndiki: Great!
[2022/04/16, 15:39:47] Puleng: I'll help Kat
[2022/04/16, 21:16:00] Puleng: @27790876913 can you please try integrating firebase with our android app. I'm having difficulties...
[2022/04/16, 21:31:08] Rofhiwa: Ayt I,Äôll try
[2022/04/16, 22:26:41] Puleng: It's working...
[2022/04/16, 22:42:31] Puleng: Only the registration activity
[2022/04/18, 00:15:11] Puleng: I've been going in circles all the time, but i finally saw my mistakes. So everything is working on my side, I'll send the project so everyone can check it...
[2022/04/18, 00:26:31] Linge: Danko⬜üôè⬜üèΩ
,Äé[2022/04/18, 00:27:36] Payet : ,Äésticker omitted
[2022/04/18, 00:28:09] Linge: ,ÄéThis message was deleted.
[2022/04/18, 00:29:48] Rofhiwa: So the register and login are working?
,Äé[2022/04/18, 01:12:36] Puleng: base.apk ,Äédocument omitted
[2022/04/18, 01:13:21] Puleng: Yeah it's working, now working on making it look professional...
[2022/04/18, 01:14:23] Puleng: If you you using an android phone...
,Äé[2022/04/18, 01:16:58] Puleng: witsoverflow.zip ,Äédocument omitted
[2022/04/18, 01:17:46] Puleng: The current project I've been working on...
[2022/04/18, 05:07:45] Sandile: ⬜üôè⬜üèæ
[2022/04/18, 15:04:40] Abelwe Ndiki: Would everyone be comfortable with a daily scrum meeting at 5pm to touch base on the documentation part of Sprint 2?
[2022/04/18, 15:33:23] Linge: Yeah
[2022/04/18, 15:42:19] Sandile: Sounds good ⬜üëç⬜üèæ
[2022/04/18, 16:05:56] Payet : ⬜üëç⬜üèæ
[2022/04/18, 16:10:56] Katlego: Yeah
[2022/04/18, 17:01:24] Abelwe Ndiki: I did the on-screen requirements for the homepage and how it will look like to create a post. I am on the fence about if it's necessary to show what it looks like when clicking the vote button or the sort button since that's like a single action
[2022/04/18, 17:01:44] Abelwe Ndiki: Will send the images through in a second and give the groupchat a chance to comment
[2022/04/18, 17:01:57] Sandile: Cool cool
[2022/04/18, 17:03:17] Sandile: I have updated the backlog on Taiga, created new user stories with descriptions and allocations. I added tasks to the sprint 2 tab
,Äé[2022/04/18, 17:05:25] Abelwe Ndiki: ,Äéimage omitted
[2022/04/18, 17:05:49] Linge: I'm still studying the requirements for this sprint and coming up with business rules I'll be done soon with them
,Äé[2022/04/18, 17:06:09] Abelwe Ndiki: ,Äéimage omitted
[2022/04/18, 17:06:15] Sandile: ⬜üëå⬜üèæ
[2022/04/18, 17:06:21] Abelwe Ndiki: Cool
[2022/04/18, 17:07:10] Payet : Started a bit of the non functional ones should be in few days
[2022/04/18, 17:11:14] Katlego: I,Äôll start documenting the functional requirements tomorrow
[2022/04/18, 17:12:44] Abelwe Ndiki: The documentation needs to be wrapped up by tomorrow. 2 things have been finalized so you can start

sending your individual parts through to me once they have be finalized.
I will compile the doc
[2022/04/18, 17:13:37] Katlego: Okay cool
[2022/04/18, 17:13:52] Abelwe Ndiki: Any updates on the user stories and
the acceptance criteria for those?
[2022/04/18, 17:14:14] Rofhiwa: I,Äôll send the user stories and user
acceptance tests tomorrow before 2pm
[2022/04/18, 17:14:54] Sandile: Alright
[2022/04/18, 17:16:05] Linge: Cool
[2022/04/18, 17:16:31] Abelwe Ndiki: Cool cool :)
[2022/04/18, 17:17:18] Abelwe Ndiki: Are there any more updates that I
might have missed?
[2022/04/18, 17:19:03] Sandile: I don,Äôt think so,Ä¶
[2022/04/18, 17:23:57] Abelwe Ndiki: Okay cool. I will check in tomorrow
in the afternoon to check if I have everyone's parts in so I compile the
entire document tomorrow.
,Äé[2022/04/19, 13:21:54] Rofhiwa: User stories.docx ,Äédocument omitted
[2022/04/19, 17:08:39] Abelwe Ndiki: Thanks ,ú®
[2022/04/19, 17:08:59] Abelwe Ndiki: Gentle reminder for everyone to send
through their parts by tonight :)
[2022/04/19, 20:49:49] Payet : Guys we got 90 for sprint one which is
good because it didn't look good when that guy was marking our sprint⬚üòп
[2022/04/19, 20:50:27] Payet : I had loadshedding all day on my side can
I please submit by tomorrow⬚üôè
[2022/04/19, 20:59:08] Sandile: No way ⬚üò≠
[2022/04/19, 21:06:18] Linge: ⬚üôè⬚üèΩ⬚üôè⬚üèΩ
[2022/04/19, 21:06:38] Linge: I need some more time too, sorry
[2022/04/20, 00:45:53] Puleng: We gonna have 100% on this sprint⬚üëÄ I
feel it, actually I know⬚üíØ
,Äé[2022/04/20, 19:28:51] Katlego: Functional Requirements for the Home
page.docx ,Ä¢ ,Äé1 page ,Äédocument omitted
,Äé[2022/04/20, 21:55:31] Linge: Sprint 2 Business Rules.docx ,Äédocument
omitted
[2022/04/20, 21:58:00] Linge: Can someone go through these and tell me if
they have something to adf
[2022/04/20, 22:03:18] Katlego: I,Äôll see if I can add something
,Äé[2022/04/21, 09:21:53] Payet : Non-functional requirements.docx
,Äédocument omitted
[2022/04/21, 20:40:59] Linge: What time is today's sprint meeting?
[2022/04/22, 07:16:56] Abelwe Ndiki: Morning everyone. Thanks for sending
in your docs will compile everything and send it back.
Apologize for the lag in communication I was writing assessments this
week. In the event that I am not communicating please do feel free to
hold a daily scrum if necessary I can always catch up via texts.
I am aware that some people are writing this afternoon as well. We can
schedule the next scrum meeting for tomorrow. I will give feedback on the
finalized documentation and we can start getting feedback regarding the
coding part.
Does that work with everyone?
,Äé[2022/04/25, 22:33:33] Abelwe Ndiki:
VirtualVelocity_Sprint2_Preview.pdf ,Äédocument omitted
[2022/05/01, 18:32:06] Abelwe Ndiki: Evening everyone. I will schedule
our next meeting with our client for Friday afternoon. Let me know if
that is cool with everyone.
That will mean that we need to have completed most of our tasks by
Friday.

Please let me know what time would work tomorrow for a Sprint update and may we please remind each other to hold the meeting. The last week has been hectic with assessment so it's been hard to hold these meetings.
[2022/05/02, 14:08:44] Abelwe Ndiki: Will everyone be comfortable giving their updates at 3pm
[2022/05/02, 14:14:45] Linge: Perfect
[2022/05/02, 14:15:16] Sandile: ⬜üëå⬜üèæ
[2022/05/02, 15:08:38] Abelwe Ndiki: Taiga has been updated. With regards to the posting user stories.
@27728095513 and myself have completed coded the front end. We were coding the back end today and now we're in the process of testing to see if it works.
With regards to the badges. I have been trying to get the Travis CI badge for the last 2 days with no success. I tried the CodeCov badge as well and didn't have much luck. If someone has figured out how to get the badge please do let the group know cause the badges account for 25 marks. The code that @27728095513 and myself have done so far has not been uploaded to github yet
[2022/05/02, 15:11:12] Abelwe Ndiki: In order for us to test if the code works well, we need the home page and that "plus" button to be done as well since our user story is trigger only after the plus button to create a story has been clicked
[2022/05/02, 15:13:01] Rofhiwa: Me and Linge will code the buttons for the homepage since thats also where you‚Äôll be seeing the posts
[2022/05/02, 15:15:38] Rofhiwa: We should add the code to git latest by tomorrow
[2022/05/02, 15:16:25] Sandile: Okay great ⬜üëå⬜üèæ
[2022/05/02, 15:22:30] Abelwe Ndiki: Can we please meet up some time to tomorrow to try and combine our parts
[2022/05/02, 15:37:40] Rofhiwa: Yeah I think during the lab sessions we can work on that
[2022/05/02, 15:41:26] Linge: For the listing part we've done almost everything and have only one issue but i think we'll have it figured out by tomorrow
[2022/05/02, 15:41:52] Linge: I mean listing the posts
[2022/05/02, 15:46:48] Abelwe Ndiki: Okay, thanks for the update :)
[2022/05/02, 15:47:04] Abelwe Ndiki: Any updates on the voting system and the sorting of the posts?
‚Äé[2022/05/02, 15:47:22] Linge: ‚Äésticker omitted
[2022/05/02, 15:47:52] Linge: I think @27633862960 is waiting for us to finish our part so he can do the sorting
[2022/05/02, 15:49:00] Abelwe Ndiki: Okay, then I think we will need to meet ngomso and finish off our parts and make sure they work so that @27633862960 and start working
[2022/05/02, 15:49:48] Katlego: Yeah
[2022/05/02, 15:50:02] Katlego: ⬜üëå⬜üèΩ
[2022/05/02, 15:51:02] Abelwe Ndiki: When will you guys have time tomorrow?
[2022/05/02, 15:51:40] Payet : Anytime before 14:15 we free
[2022/05/03, 08:13:41] Abelwe Ndiki: We can meet up at 12pm. I might be a couple minutes late as I will be coming from a class. You can start without me
[2022/05/03, 11:03:48] Rofhiwa: Can‚Äôt we say we can start during lunch time, I wanna finish my machine learning tut which‚Äôs due at 2 before coming to campus
[2022/05/03, 11:04:29] Sandile: Fine with me ⬜üëç⬜üèæ
[2022/05/03, 11:19:59] Abelwe Ndiki: What time is lunch time?
[2022/05/03, 11:20:53] Rofhiwa: 13:15

[2022/05/03, 11:33:07] Abelwe Ndiki: Got you
[2022/05/03, 12:11:01] Abelwe Ndiki: We will be in the honors lab in the mean time, if someone is available you can come through
[2022/05/03, 12:45:27] Thabelo: Hi guys, me and @27740483378 are currently unavailable, but we will be done with the coding for the voting by the end of the day hoping everything smoothly. Please also update here on WhatsApp on your scrum meeting today. Goodluck guys.
[2022/05/03, 12:47:23] Abelwe Ndiki: Okay thanks for the update. I will send an update on how to ensure that we all work on the same repository and everyone's input is reflecting ‚ú®
[2022/05/03, 12:52:51] Tshepang: if I may ask , who's creating the posts ?
[2022/05/03, 12:53:12] Sandile: @27734843407 and I
[2022/05/03, 12:53:55] Tshepang: y'all are adding them to the database right ?
[2022/05/03, 12:54:52] Sandile: Yes
[2022/05/03, 12:54:55] Puleng: Guys which lab are you using?
[2022/05/03, 12:55:50] Sandile: I think it‚Äôs 110
[2022/05/03, 12:56:26] Tshepang: alright, if you haven't done it yet , can you please add a "Votes" column for each post (initialized to 0). Sorry for the inconvenience .
[2022/05/03, 12:56:41] Tshepang: We gonna need that column for voting
[2022/05/03, 13:01:26] Payet : I think for the listing one we need you guys to be done also with you part
[2022/05/03, 13:03:39] Payet : Sorry guys I think we gonna be 10-15 minutes late we finishing our ML tut here
[2022/05/03, 13:04:40] Puleng: Nobody is here..
[2022/05/03, 13:09:02] Abelwe Ndiki: We're here in the corner, what are you wearing?
[2022/05/03, 13:15:19] Puleng: Kinda like a furry hoodie(creamy white)...
[2022/05/03, 13:15:44] Puleng: Is everyone there already?
[2022/05/03, 13:15:58] Sandile: @27734843407 and I are there
[2022/05/03, 13:45:31] Abelwe Ndiki: We got the Travis CI badge, currently working on Code Cov
‚Äé[2022/05/03, 13:58:15] Linge: WitsOverflow.zip ‚Äédocument omitted
‚Äé[2022/05/03, 14:30:10] Sandile: ‚Äéimage omitted
[2022/05/03, 17:15:39] Abelwe Ndiki: Afternoon everyone. Tristan says he only had availability for after 15:30pm on the Friday, I know that won't work for @27728095513 as they have an assessment at that time, what about everyone else?
[2022/05/03, 17:48:06] Payet : Okay with that
[2022/05/03, 18:12:14] Linge: Same here
[2022/05/03, 21:44:46] Abelwe Ndiki: Cool
[2022/05/04, 01:49:28] Thabelo: Hi guys, the post database doesn't seem to have the up vote and down vote fields that we need to update on or retrieve from.
[2022/05/04, 10:13:02] Abelwe Ndiki: Hey, I'm still busy with merging the code for creating a post and viewing posts so I'm not sure I will be a le to help out
[2022/05/04, 10:25:16] Rofhiwa: The thing is in firebase we dont make the fields in the database directly, but the code for creating post should also add an upvote and downvote field to each post and initially set them to zero
[2022/05/04, 10:33:46] Abelwe Ndiki: Hey everyone I need help with the code cause I'm not understanding where I could be going wrong.
So once you get to the home page where you can view the posts, when I click on the "plus" button, instead of being redirected to the page to create posts, I'm sent back to the logging in page

‚Äé[2022/05/04, 10:34:47] Abelwe Ndiki: ‚Äéimage omitted
[2022/05/04, 10:36:22] Rofhiwa: Is it showing any errors?
[2022/05/04, 10:39:11] Abelwe Ndiki: Nope. So it runs kakuhle and the only problems is that once I click the plus button is doesn't redirect me to the correct page
‚Äé[2022/05/04, 10:39:58] Abelwe Ndiki: ‚Äéimage omitted
[2022/05/04, 10:53:22] Rofhiwa: I think I encountered the same thing but for me it was when I tried to receive an itent from the previous function outside of the onCreate method
[2022/05/04, 11:03:43] Abelwe Ndiki: Okay so I think we're facing the same problem. I'm trying to run the code for the Create Post thing on its own and the error it's giving me is
"activity must be exported or contain an intent-filter", is this the same error you encountered? @27790876913
[2022/05/04, 11:10:58] Rofhiwa: It might be, try sending the username as an extra to the create post class and receive it there cause I see you didn‚Äôt send it here
[2022/05/04, 11:11:50] Rofhiwa: Username is Student_num
[2022/05/04, 11:19:56] Abelwe Ndiki: I get the first part, but what do you mean by "receive" it on the Create Post class?
‚Äé[2022/05/04, 11:27:10] Rofhiwa: ‚Äéimage omitted
[2022/05/04, 11:45:47] Abelwe Ndiki: Tried it and still the same thing is happening üíî
[2022/05/04, 12:19:11] Abelwe Ndiki: I might have to send through the merged app, I need help sorting out this bug
‚Äé[2022/05/04, 12:33:04] Abelwe Ndiki: WitsOverflow_Merged_Has_Bug.zip ‚Äédocument omitted
[2022/05/04, 12:33:42] Abelwe Ndiki: @27790876913 @27637128758 may you please help us out with figuring out what this bug is
[2022/05/04, 12:38:07] Rofhiwa: We‚Äôll check it
[2022/05/04, 12:40:34] Abelwe Ndiki: Appreciate it. We will keep working on our side to figure out what's wrong. If we could sort this part out today that would be great so that tomorrow we can focus on the voting and sorting
[2022/05/04, 15:11:50] Abelwe Ndiki: Please let us know if someone manages to fix that bug, we had to leave the cause we had to prep for an assessment
[2022/05/04, 19:35:27] Abelwe Ndiki: Evening everyone, did anyone have any luck with fixing the bug?
[2022/05/04, 19:39:31] Rofhiwa: Not yet on my case
[2022/05/04, 19:50:06] Abelwe Ndiki: So you're also getting the same issue when you run it? üíî
[2022/05/04, 19:57:19] Linge: I haven't gotten time to try it out, mara i will later on
‚Äé[2022/05/04, 19:59:35] Rofhiwa: ‚Äéimage omitted
[2022/05/04, 20:03:05] Abelwe Ndiki: Oh my goodness üòÖ
[2022/05/04, 20:03:23] Abelwe Ndiki: Can you even run it?
[2022/05/04, 20:10:51] Rofhiwa: Its working now
[2022/05/04, 20:43:26] Abelwe Ndiki: Wait so once you get to the page where you see the post, when you click the plus sign does it redirect you to the page where you create posts?
[2022/05/04, 20:44:41] Rofhiwa: Yeah it even posts the post successfully
[2022/05/04, 20:46:43] Abelwe Ndiki: Great! May you send the zip file for the app that runs well üíÉüèø
Then tomorrow the focus should be on adding the code for the sorting and voting and making sure the whole thing runs at the end?
[2022/05/04, 20:59:19] Rofhiwa: I‚Äôll send it I just wanna add some few things to the retrieve post class

[2022/05/04, 21:18:15] Abelwe Ndiki: No problem. Thank you alot for the help ,ú®
,Äé[2022/05/05, 03:21:52] Rofhiwa: WitsOverflow.zip ,Äédocument omitted
[2022/05/05, 07:49:15] Abelwe Ndiki: Thank you ,ú®
[2022/05/05, 10:47:11] Abelwe Ndiki: The guys working on the sorting and the voting, do they need an assistance with merging their code with the rest of the project or are they still okay?
[2022/05/05, 16:08:59] Puleng: Nah we'll manage, still waitin on @27633862960 to improve the Post activity design and layout... Hopefully we'll be done by midnight.
[2022/05/05, 16:12:11] Abelwe Ndiki: Oh okay. I won't be able to demo the app during the meetings so I would really appreciate it if someone else could do it
[2022/05/05, 18:51:07] Puleng: Did anyone try checking if the post page is scrollable? Or if it can view multiple post?
[2022/05/05, 18:59:59] Abelwe Ndiki: We didn't check yesterday as only 2 posts were visible at the time
[2022/05/05, 19:01:05] Rofhiwa: I believe a recycler view does scroll
[2022/05/05, 20:47:37] Rofhiwa: The one who,Äôs sorting posts by votes should also code the voting buttons to work
[2022/05/05, 20:59:03] Tshepang: For voting, we struggle to distinguish between the posts on the screen, how can we do that ?
[2022/05/05, 21:05:42] Tshepang: we are working on those buttons, and i think @27633862960 will do the sorting .
[2022/05/05, 21:10:12] Katlego: @27712636997 and @27790876913 suggested that I improve the design then @27712636997 will work on sorting, but I can help him if I manage to finish in time
[2022/05/05, 21:30:12] Rofhiwa: I think when you click on the button you should get the post and use it to find its unique identifier then after that use that unique identifier to find the upvote or downvote number and increment it
[2022/05/05, 21:34:54] Tshepang: yeah, now the problem is , how do we use that post to find it's unique identifier , while we cannot even identify that post.
PS: apologies for bringing problems..
[2022/05/05, 21:39:22] Rofhiwa: I think if you just try to get a post after a button has been clicked it will automatically know whick post it is because those buttons are linked with whichever post they appear under
[2022/05/05, 21:49:48] Tshepang: can you assist with getting that post ?
[2022/05/05, 21:51:45] Thabelo: It seems the MyAdapter runs only once and so after updating it doesn't show the updated values, are we doing something wrong?
[2022/05/05, 23:12:19] Puleng: ,ÄéThis message was deleted.
[2022/05/05, 23:34:38] Katlego: Guys, was searching part of the requirements?
[2022/05/05, 23:35:07] Sandile: Nope
[2022/05/05, 23:37:00] Katlego: Alright, should I remove the button even tho it doesn,Äôt do anything? I feel like it makes the design look better
[2022/05/06, 00:03:42] Puleng: cool□üëç□üèΩ
[2022/05/06, 00:43:04] Abelwe Ndiki: I also think it makes the design look better
,Äé[2022/05/06, 01:21:12] Katlego: witsoverflow.zip ,Äédocument omitted
[2022/05/06, 01:23:38] Katlego: I haven,Äôt worked on the posts. The create post button and profile button still work as intended. People working on votes and sorting may update the project, then I,Äôll finish everything off before the meeting
[2022/05/06, 08:02:09] Abelwe Ndiki: Thanks for the update ,ú®

[2022/05/06, 11:46:35] Abelwe Ndiki: Hey guys, just a reminder that the sprint preview is at 3:30pm this afternoon. Like I mentioned before I won't be able to demo the app on my phone, someone will need to download the app and run it on their phone during the meeting..
If anyone will be unable to make the meeting please let the team know ahead of time :)
[2022/05/06, 12:00:48] Puleng: I don't know if I'll be done by 3pm but I'll give an update 30 min before....
[2022/05/06, 12:03:39] Abelwe Ndiki: Okay cool. We don't need to have the whole thing working for the presentation if most of the user stories work then I think we should be good. We have the weekend to polish off everything ‚ú®
[2022/05/06, 15:19:09] Abelwe Ndiki: Meeting in 10 minutes
[2022/05/06, 15:20:11] Sandile: I won‚Äôt be able to attend as I have a test
[2022/05/06, 15:22:22] Abelwe Ndiki: Cool. Side note if someone could take a vidoe or record the meeting that would be much appreciated. I just remembered that the tutor asked about this when he was marking out project üôÉ
[2022/05/06, 15:23:18] Payet : @27790876913 he's the master of recordingüòÖ
[2022/05/06, 15:24:31] Rofhiwa: üòÇüòÇ I‚Äôll record the sound
[2022/05/06, 15:28:21] Katlego: Have you sent the link ?
[2022/05/06, 15:30:44] Abelwe Ndiki: I sent the link out a while back
[2022/05/06, 16:04:50] Abelwe Ndiki: Thank you everyone, will send the list of the new user stories in a bit.
[2022/05/06, 16:05:59] Payet : Sure will help @27712636997 with the sorting part hopefully we will be done by Sunday
[2022/05/06, 16:13:08] Abelwe Ndiki: Cool cool.
[2022/05/06, 16:14:42] Abelwe Ndiki: Sprint 3 User Stories
* When creating a post, you must be able to add a picture as an attachment
* When you click on a post from the homepage, you should be redirected to a new page where only that post is visible. It should display the Caption, Post and the attachment
[2022/05/08, 10:55:16] Abelwe Ndiki: Morning guys, any updates @27640960622?
At some point during the day everyone needs to upload the new code on Github and make sure their commits reflect I will let you know the best way we can do it so everyone appears on the insight‚ú® I will also send through the repository that we will be using
[2022/05/08, 15:07:37] Abelwe Ndiki: The repository that we will be using is abelwen/witsoverflow_2213773.
If you're unable to make changes you can make a pull request to upload a Java class that you worked on and I will accept the request. Once you have made the pull requests just shoot me a text so I can quickly accept it
I'm not sure if anyone is able to pull code from their Android Studio, I couldn't yesterday so I thought the best thing to do would be to upload the individual class files that we worked on in Sprint 2 and add them to the relevant folders in the "app" on Github.
If anyone has a better way of uploading the new code into Github please let the group know.
The last time I checked there were only 6 contributors
Sandile N
Abelwe
PulengAlvi
Payet10

Xhepan
TRJMajika
So we don't have 2 people reflected in the insight so if you were not part of the list above, may you please be responsible for uploading the Java class that you were assigned for the sprint so that Github picks you up as contributor ,ú®
[2022/05/08, 15:13:28] Sandile: I think the last person who added on to this removed the edit text box for the student number on the login page
[2022/05/08, 15:14:52] Katlego: Nah it,Äôs still there
[2022/05/08, 19:23:07] Abelwe Ndiki: Hey everyone :). If someone is not a collaborator please send me your email address. I sent out some invitations during the day but I might have missed someone ,ú®
[2022/05/08, 19:31:28] Rofhiwa: I think its me, student number is 2135075
[2022/05/08, 19:32:43] Abelwe Ndiki: I can send the invite through your student email address, would that be okay?
[2022/05/08, 22:01:51] Payet : my Android studio crashed and i've trying to fix it all day.......
[2022/05/08, 22:02:44] Payet : and to sort by votes the voting part has to be working and im not sure if @27740483378 is done with doing that ,Äé[2022/05/08, 22:35:12] Katlego: witsoverflow.zip ,Äédocument omitted
[2022/05/08, 23:05:01] Tshepang: still struggling, but working on it
[2022/05/08, 23:05:40] Abelwe Ndiki: Okay cool
[2022/05/08, 23:12:51] Payet : still waiting for the best way to commit
[2022/05/08, 23:14:25] Abelwe Ndiki: I have made everyone a contributor so I have seen that some people have been uploading the edited class files onto Github.
I'm just noticing that even though people have committed/uploaded files during the day it's not reflecting under insights
,Äé[2022/05/09, 06:26:34] Puleng: ,Äéimage omitted
,Äé[2022/05/09, 06:26:35] Puleng: ,Äéimage omitted
[2022/05/09, 07:00:05] Sandile: □üëå□üèæ
[2022/05/09, 10:54:02] Abelwe Ndiki: Hey :) if anyone has the zip file for the latest app that includes the sorting and voting. May you please send it to the group. I want to run and compile it before we start setting up for the presentation ,ú®
,Äé[2022/05/09, 11:11:17] Puleng: witsoverflow.zip ,Äédocument omitted
[2022/05/09, 11:11:28] Puleng: ,ÄéThis message was deleted.
[2022/05/09, 11:18:49] Puleng: Who's working on the voting?
[2022/05/09, 11:25:19] Abelwe Ndiki: Thank you ,ú®has the voting not been done yet?
[2022/05/09, 11:57:33] Tshepang: I've uploaded the "Vote" file on GitHub, it's not working, i tried ...
So please anyone check the file and fix it .
[2022/05/09, 11:58:13] Tshepang: or suggest any solutions .
[2022/05/09, 12:10:08] Abelwe Ndiki: Hey @27712636997 with the code that you sent through, when we click the Profile button it shows the pop up menu for sorting and we can't navigate to view the profile, would you be able to fix that bug before presentation
[2022/05/09, 13:20:35] Abelwe Ndiki: We will have to present without the voting user story as it has not been finalized.
I am already on campus and we will meet outside MSL right before presentations start ,ú®
[2022/05/09, 13:29:02] Puleng: □ü•µwas the problem fixed?
[2022/05/09, 13:45:09] Abelwe Ndiki: No it wasn't □üíî
[2022/05/09, 14:00:06] Puleng: Where you at?
[2022/05/09, 14:01:40] Abelwe Ndiki: I went to the Towers quickly, will head to MSL in a bit. Have you arrived at MSL?
[2022/05/09, 14:02:35] Puleng: Yep

[2022/05/09, 14:04:03] Abelwe Ndiki: Okay see you in a bit
[2022/05/09, 14:11:22] Abelwe Ndiki: Which lab are you in?
[2022/05/09, 14:28:17] Abelwe Ndiki: Hey guys we're 2 people short for the presentation...
[2022/05/09, 15:02:34] Tshepang: Majika's not answering his phone and his online , he's not around because i last saw him Saturday.
[2022/05/09, 20:09:17] Thabelo: Evening, sorry I couldn't make it today, I'm currently at home in Soweto, family issues
[2022/05/11, 08:43:46] Abelwe Ndiki: Morning everyone. Apologies for the delayed communication. I'm not sure if the double coms people have an assessment this week but I wanted to kindly asks that for Sprint 3 everyone handles the documentation that they handles for the last 2 sprints. If you do not have documentation to do you will be in charge of updating Taiga.
Sprint 3 is due on the 23rd of May I believe so we effectively have this week and next week to wrap everything up
[2022/05/11, 14:05:34] Puleng: Guess I'll be updating Taiga.
[2022/05/11, 14:06:18] Puleng: Can somebody please send the recordings for our previous retrospectives...
[2022/05/11, 14:10:16] Rofhiwa: I‚Äôll send it when I get to res
‚Äé[2022/05/12, 11:11:09] Puleng: ‚ÄéGIF omitted

‚Äé[2022/05/12, 15:13:13] Sandile: ‚Äéimage omitted
[2022/05/12, 18:06:18] Abelwe Ndiki: Thank you ‚ú®
[2022/05/12, 18:07:37] Abelwe Ndiki: May we schedule a Sprint planning meeting tomorrow at 12:00pm. It should take about 15 minutes if everyone is online. We just need to assign tasks about who will be handling which user stories and stuff that are still outstanding.
@27740483378 were you able to sort out the votes from Sprint 1, we haven't received any updates on the issue this week.
[2022/05/12, 18:23:58] Tshepang: took a break from it, but I'll get back to it .
[2022/05/12, 18:35:16] Abelwe Ndiki: May you kindly wrap that up during the weekend :). We only have the upcoming week to code the user stories we got for Sprint 3. But the voting was the only outstanding user story from Sprint 2 so it will get carried over to the third sprint as well. As per usual, I will schedule the meeting with the client for this upcoming Friday, May everyone let me know about their preferred times for the meeting. Will send out invites on Monday
[2022/05/12, 18:36:58] Abelwe Ndiki: Thank you for this ‚ú®üòä
[2022/05/13, 14:34:16] Payet : Sprint marks are out we got
98üî•üî•üî•ü•≤ü•≤ü•≤
Well done guysü•≤ü•≤ü•≤ü•≤ü•≤

[2022/05/13, 19:24:11] Abelwe Ndiki: Thank you for the plug ‚ú®￼üå￼
[2022/05/13, 19:24:19] Payet : Your plug is slow￼üòπ￼üòπ￼üòπ
[2022/05/13, 19:25:55] Linge: So u have it and didn't plug your fellow
group members ￼üòØ
[2022/05/13, 19:26:39] Abelwe Ndiki: You're asking valid questions now
￼üåö￼üëÄ
[2022/05/13, 19:27:09] Katlego: ￼üíÄ￼üíÄ
[2022/05/13, 19:29:21] Payet : You'll are there in the COMS group muc￼ü´•
‚Äé[2022/05/13, 19:30:50] Linge: ‚Äésticker omitted
[2022/05/13, 20:05:39] Abelwe Ndiki: Okay so to recap what we need to do
for Sprint 3
1)May everyone send me their documentation before the end of the weekend
so we can mark that as done.
2) I believe that @27728095513 just updating the relavant Sprint 3 info
on Taiga, we will finish this off a day before the presentation.
3) As a reminder, the voting user story has been carried over to Sprint 3
so may that please be resolved by the end of the weekend.
4) We have 2 additional user stories for Sprint 3. Being able to upload a
picture when creating a post and being able to select a post from the
homepage and be redirected to a new page containing info about that
specific post only. We need people to code both the front and the back
end.
5)We need to sort out our Test Driven Development for the project, so we
need people to sort out the code coverage issues we had in sprint 2 and
write up test cases. I think we can aim for a percentage of atleast 2%
for code coverage
[2022/05/13, 20:06:11] Abelwe Ndiki: Is everyone clear about what we need
to be working on for this sprint before we move on to assigning tasks?
[2022/05/13, 20:10:04] Sandile: I‚Äôm good
[2022/05/13, 20:11:30] Abelwe Ndiki: Cool.
So @27728095513 and Myself were previously working on the code coverage +
test cases last sprint and I think we're comforting continuing in Sprint
3 as well.
Are there any user stories that someone wants to take up?
[2022/05/13, 20:12:39] Puleng: I'll try to sort out the voting user
stories tonight so we can move on from it
[2022/05/13, 20:13:53] Linge: I'll try selecting the post mara I'm sure
I'll need help
[2022/05/13, 20:14:37] Puleng: Also the bottom navigation menu, I'll try
to fix it
[2022/05/13, 20:14:59] Puleng: For the sorting, search, & profile
[2022/05/13, 20:16:00] Abelwe Ndiki: I think if you can work on the
sorting and profile button, because we haven't been tasked to build a
user story around the search button
[2022/05/13, 20:16:36] Puleng: Noted‚úç￼üè∞
[2022/05/13, 20:16:46] Abelwe Ndiki: I think the people working on user
stories should work in pairs or trios. We have less user stories this
sprint as we have slightly more people on each user story
[2022/05/13, 20:16:50] Abelwe Ndiki: Great :)
[2022/05/13, 20:17:33] Puleng: Actually not the user stories but making
sure the button works

[2022/05/13, 20:18:15] Abelwe Ndiki: Cool cool
[2022/05/13, 20:18:51] Abelwe Ndiki: Anyone open to joining @27637128758 and working with him for the select post user story?
‚Äé[2022/05/13, 20:19:25] Linge: ‚ÄéGIF omitted
[2022/05/13, 20:19:52] Abelwe Ndiki: □üòÇ□üòÇ□üòÇ
[2022/05/13, 20:23:23] Rofhiwa: I can help you poi, but being done with the documentation before the weekend I don‚Äôt think I‚Äôll be able to be finished
[2022/05/13, 20:28:24] Abelwe Ndiki: Oh okay. So I think everyone should aim to be done with the documentation by the end of the weekend but if you're unable to you can update us on Sunday
[2022/05/13, 22:28:45] Payet : Sorry guys I missed the meeting......I will work with @27637128758 and @27790876913 i
[2022/05/13, 22:31:14] Katlego: There‚Äôs the uploading part.. we can work on it together
[2022/05/13, 22:32:28] Payet : Sure boii□üëä
‚Äé[2022/05/15, 02:19:57] Rofhiwa: Sprint 3 User stories.docx ‚Äédocument omitted

[2022/05/16, 16:31:17] Abelwe Ndiki: Beefing with Tamlin unfortunately □üíî
[2022/05/16, 18:11:38] Rofhiwa: Mr Love really doesn‚Äôt love us
[2022/05/17, 14:46:25] Abelwe Ndiki: Afternoon may we please have a Sprint meeting at 6pm this evening.
A couple of questions. who is working on the user story to be able to upload pictures when making a post
Secondly, I will be drafting an email with the client? Any time slots that Friday that will be an inconvenience to you?
[2022/05/17, 14:55:28] Sandile: Afternoon, 18:00 sounds good. And once again I have a test Friday afternoon so anytime before 14:00 would work for me
[2022/05/17, 15:01:51] Linge: Friday is good
[2022/05/17, 17:49:09] Abelwe Ndiki: Sprint meeting in 10 minutes
[2022/05/17, 18:01:33] Abelwe Ndiki: So I'm almost done with documentation. The only thing outstanding are the business rules. May whoever was responsible for those send me their work as soon as possible. We only have 2 user stories so it shouldn't take time
[2022/05/17, 18:07:15] Abelwe Ndiki: Just to touch base again
The people working on selecting a post are : @27790876913 and @27637128758.
The people working on uploading a picture : @27633862960 and @27640960622
Fixing the voting user story from last sprint @27712636997
Write test coverage code : @27728095513 and myself.
Two group members did not take up any tasks @27665431841 and @27740483378
[2022/05/17, 18:08:15] Abelwe Ndiki: So may we get an update on some of the user stories if you have gotten time to code them.

@27665431841 and @27740483378 choose a user story that you're going to be working on for Sprint 3. We have a Sprint presentation on Friday
[2022/05/17, 18:08:44] Tshepang: i thought we was doing the voting .
[2022/05/17, 18:14:12] Abelwe Ndiki: .
[2022/05/17, 18:15:27] Tshepang: we'll all work on it then .
[2022/05/17, 18:15:53] Abelwe Ndiki: Okay so I think there might have been a bit of confusion somewhere.
@27665431841 and @27740483378 you were initially working on this user story in the previous sprint, unfortunately due to how long it was taking @27712636997 offered to pick it up and try and sort it.
So I think we have a situation were all 3 of you were simultaneously working on it.
[2022/05/17, 18:16:38] Abelwe Ndiki: Cool. So since the last time we met up as a group have you made any progress on the voting user story?
[2022/05/17, 18:17:05] Rofhiwa: Thats right
[2022/05/17, 18:17:58] Tshepang: it's promising, got distracted by the test, but it's promising .
[2022/05/17, 18:18:11] Abelwe Ndiki: Cool :)
[2022/05/17, 18:19:00] Linge: I'll send the business rules tonight or early tomorrow morning sorry about the delay
[2022/05/17, 18:19:37] Abelwe Ndiki: ‚ÄéThis message was deleted.
[2022/05/17, 18:19:59] Abelwe Ndiki: No problem :) just need those 2 lines then we will be done with the documentation ￼üòä
[2022/05/17, 18:20:18] Katlego: I‚Äôll do the functional requirements tonight
[2022/05/17, 18:21:50] Abelwe Ndiki: A quick update from the test coverage side. We were making very minimal progress we thought be best to changing from using TravisCI and CodeCov for our testing (these are the TDD tools we used for Sprint 2). To using CircleCI
We are in the process of creating CircleCI accounts now and setting it up
[2022/05/17, 18:22:57] Linge: Bet
[2022/05/17, 18:23:29] Abelwe Ndiki: I actually don't thinking sending me functional requirements @27633862960. Please go through the document and let me know if you think these qualify as functional requirements, because this is the info I used for the functional requirements in the Sprint 3 document
[2022/05/17, 18:24:29] Rofhiwa: Do we all have to create accounts?
[2022/05/17, 18:25:08] Abelwe Ndiki: Okay please do communicate with @27712636997 and collaborate. Let him know if the votes are appearing on the database. If you could reach out to him before the end of the day that would be great so that he doesn't ended up coding something that has already been done
[2022/05/17, 18:25:29] Katlego: Those are non functional
[2022/05/17, 18:25:51] Abelwe Ndiki: I'm not sure, I don't think it will be necessary but I will be consulting with a tutor about it
[2022/05/17, 18:26:26] Tshepang: alright
[2022/05/17, 18:27:51] Abelwe Ndiki: In my mind, non-functional requirements are security, reliability, usability and so forth. The document made no mention about any of those but rather talks about. How everything works and what everything should look and work, so I assumed there was a mistake with the title of the documentation
What do you think?
[2022/05/17, 18:28:38] Abelwe Ndiki: Should I place the info from the document under non-functional requirements and then wait for the rest of the data from you?
[2022/05/17, 18:40:20] Abelwe Ndiki: Okay while I wait for a response from @27633862960, any updates worth mentioning to the team @everyone?

[2022/05/17, 18:44:05] Sandile: On my side, still figuring out the whole unit testing thing and changing from travis to circle ci
[2022/05/17, 19:04:01] Linge: We still trying to make the text view clickable
[2022/05/17, 19:06:48] Katlego: Yeah
[2022/05/17, 19:08:27] Abelwe Ndiki: Cool,ú®
[2022/05/17, 22:13:07] Puleng: Hopefully I'll be able to update the tasks on taiga by midnight. we'll see if @27740483378 & @27665431841 will repeat what they did on previous sprint on friday.
[2022/05/17, 22:13:34] Puleng: ,ÄéThis message was deleted.
[2022/05/17, 22:14:55] Puleng: I'll finish working on the buttons on navigation menu in the meantime
[2022/05/17, 22:18:43] Thabelo: Gotta discuss your deal with us when we meet.
[2022/05/17, 22:39:36] Puleng: Cool we can make that happen quicker if you like
,Äé[2022/05/17, 22:45:22] Linge: ,ÄéGIF omitted
[2022/05/17, 23:01:54] Thabelo: We'll talk, I don't know if they tell you but you're mean bro.
,Äé[2022/05/17, 23:03:26] Payet : ,Äésticker omitted
,Äé[2022/05/17, 23:23:05] Rofhiwa: ,Äésticker omitted
[2022/05/18, 13:50:16] Puleng: Guys I fix the bottom navigation buttons(Sort & profile)... Is there anything else i can help with?
[2022/05/18, 13:51:07] Linge: I'm having trouble with making de textview clickable
[2022/05/18, 13:51:15] Katlego: Send the file here, I wanna make some updates
[2022/05/18, 13:54:19] Linge: I got it dawg
[2022/05/18, 13:55:52] Puleng: Cool☐üéç☐üèΩ
,Äé[2022/05/18, 14:05:14] Katlego: Functional requirements 3.docx ,Äédocument omitted
[2022/05/18, 14:06:32] Puleng: Did you set recycleview item listener?
[2022/05/18, 14:09:47] Abelwe Ndiki: Got it :)
[2022/05/18, 14:12:44] Linge: I'll send mine through in a minute
[2022/05/18, 14:13:31] Linge: What exactly about the post is supposed to be showed after you click on it
,Äé[2022/05/18, 14:15:19] Linge: Business Rules.docx ,Äédocument omitted
[2022/05/18, 14:16:31] Abelwe Ndiki: So it should direct you to a new page where you can see the caption, the whole post and the picture that was uploaded
[2022/05/18, 14:17:24] Linge: Please go through these☐üôè☐üèΩ
[2022/05/18, 14:17:25] Payet : Meaning you have to wait for us to finish the picture thingy I think
[2022/05/18, 14:18:02] Linge: ☐üòÇI'll commit early you'll add it poi
[2022/05/18, 14:18:07] Katlego: Not necessarily
[2022/05/18, 14:19:45] Linge: Alright got it, can i get the on-screen requirements for that new page
[2022/05/18, 14:19:56] Abelwe Ndiki: Okay cool. ☐ü§ç Will add everything by the evening, I'm working on an assignment at the moment
[2022/05/18, 14:22:28] Katlego: @27712636997
[2022/05/18, 14:23:55] Linge: ...
[2022/05/18, 14:24:40] Abelwe Ndiki: Sending them now ☐üò≠☐üòÇ was still opening the document on my laptop
,Äé[2022/05/18, 14:25:06] Payet : ,Äésticker omitted
,Äé[2022/05/18, 14:26:45] Abelwe Ndiki: ,Äéimage omitted
[2022/05/18, 14:27:28] Linge: ,ÄéThis message was deleted.
[2022/05/18, 14:27:48] Linge: Thank you ☐üôè☐üèΩ
,Äé[2022/05/18, 14:28:58] Payet : ,Äésticker omitted

[2022/05/18, 18:09:03] Abelwe Ndiki: They're great □üëç□üèæ
,Äé[2022/05/18, 18:09:51] Linge: ,ÄéGIF omitted
[2022/05/18, 18:17:47] Abelwe Ndiki: Update : Tristan can only meet with
us on Tuesday. He wants a video of all the stuff we worked on for this
sprint.
So no meeting on Friday. Deadline for the video submission is Monday
Morning
,Äé[2022/05/19, 16:39:30] Thabelo: witsoverflow new_ vote.zip ,Äédocument
omitted
[2022/05/19, 16:44:44] Thabelo: Afternoon, we've done the voting.
Problem is when you press the up or down button, it displays on the
database same time but only displays the updated votes on the output
component when the app reloads/enter the app again..
,Äé[2022/05/20, 01:01:06] Payet : ,Äévideo omitted
[2022/05/20, 12:39:23] Abelwe Ndiki: Hey, I'm struggling to run this on
my side. May someone else try to run it and check if it compiles on their
side,ú®
[2022/05/20, 13:09:38] Sandile: There was a problem with a class, it
works on my side
[2022/05/20, 13:11:20] Abelwe Ndiki: I managed to see what you mean by
the voting only reflecting once you reload the app :)
[2022/05/20, 16:21:53] Puleng: Can you add
myAdapter.notifyDataSetChanged(); right after the voting code
[2022/05/20, 16:22:37] Puleng: This actually refreshes the list or
recycle view
[2022/05/20, 16:23:16] Puleng: Then check if this would solve the
issue...
[2022/05/21, 11:17:25] Abelwe Ndiki: I didn't get time to add this part
izolo, I was working on the test coverage
,Äé[2022/05/21, 11:19:25] Abelwe Ndiki: ,Äéimage omitted
[2022/05/21, 11:19:40] Abelwe Ndiki: We're still writing more tests to
try and get a higher coverage
[2022/05/22, 09:24:17] Abelwe Ndiki: Morning, would everyone be okay with
a 5pm scrum meeting just to touch base before tomorrow?
[2022/05/22, 10:31:38] Sandile: Sounds good
,Äé[2022/05/22, 11:33:42] Sandile: ,Äéimage omitted
[2022/05/22, 17:00:25] Abelwe Ndiki: Hey everyone :) when you get the
chance please update the groupchat about any notable progress, I will be
going through Taiga this evening to update tasks.
Reminder, we need someone to take a vidoe of the so running and we need
to send that off to Tristan before the presentations tomorrow
[2022/05/22, 17:03:17] Payet : We managed to assign the image to the post
in the database..we only left with retrieving it... hopefully will be
done before midnight□üôè
[2022/05/22, 17:06:52] Rofhiwa: Are you doing that with @27637128758?
[2022/05/22, 17:07:20] Payet : Nah with kat
[2022/05/22, 17:08:09] Sandile: Managed to draw all the 4+1 uml diagrams
and uploaded them on taiga. Wrote a few more test cases but the coverage
hasn,Äôt gone up significantly
[2022/05/22, 17:08:33] Rofhiwa: Linge sent you the code for where we left
of?
[2022/05/22, 17:09:35] Payet : No
[2022/05/22, 17:16:39] Linge: Me and @27790876913 have finished we are
only left with the picture which has to be done by @27633862960 and
@payet
[2022/05/22, 17:16:45] Abelwe Ndiki: Cool. Will look for more test cases
and send those through
[2022/05/22, 17:17:05] Abelwe Ndiki: Thanks for the update. ,ú®

[2022/05/22, 17:18:51] Abelwe Ndiki: Will anyone be able to make sure the video gets recorded and sent to Tristan, it does not have to have all the user stories but we do need to send that off to him..
[2022/05/22, 17:19:47] Linge: Were you guys able to fix this?
[2022/05/22, 17:25:39] Thabelo: Still trying.
Had found another way of doing it which does display an updated vote on the output component without having to reload but problem is after it displays an updated vote it immediately says wits-overflow not responding and stops the app.
[2022/05/22, 19:18:23] Rofhiwa: Check what it says on the error list the moment it crashes
[2022/05/22, 19:18:49] Rofhiwa: Will you be needing any assistance?
[2022/05/23, 09:02:35] Payet : Guys retrieving the images seems like the issue rn we even tried it with @27790876913 ....but I'm still waiting for his feedback on that
[2022/05/23, 09:42:36] Abelwe Ndiki: Is there any short cut you think would work in terms of tricking the tutors into thinking it works ☐üò≠
[2022/05/23, 09:45:49] Payet : I'm working on that..what time does Tristan wants the video?
[2022/05/23, 09:51:27] Abelwe Ndiki: He didn't specify the time but it should be before the presentations
[2022/05/23, 11:21:23] Payet : Eix I'm sorry guys I don't know why this thing is not working but I wrote the code for retrieving I'll send in a minute maybe someone can figure something out quickly
[2022/05/23, 11:23:22] Abelwe Ndiki: Okay, may everyone let me know which parts are working for sure, so that I can figure out how I'm going to handle the presentation
[2022/05/23, 11:23:35] Abelwe Ndiki: Thanks for the effort
[2022/05/23, 11:26:26] Thabelo: Hi what does it mean if the sign in and register button won't work anymore?
[2022/05/23, 11:26:27] Payet : I think everything else is working except for the image....@27637128758 and @27790876913 have to send the clicking of the post part and then we combine it...not if the voting is fixed
[2022/05/23, 11:29:05] Abelwe Ndiki: They have to work because it's still part of the presentation ☐üåö we need to run the app from start to finish which includes the logging in part. I don't know why they would stop working because no one was working on those buttons for this sprint
[2022/05/23, 11:30:32] Linge: Can't the image be saved on local storage and be retrieved that way so we can trick the tutors?
[2022/05/23, 11:33:09] Thabelo: Okay, maybe there's an error in the code or crash or something will look for it.
[2022/05/23, 11:34:25] Thabelo: @27734843407 can you please check if the sign in and register button are working here.
,Äé[2022/05/23, 11:35:50] Payet : WitsOverflow.zip ‚Äédocument omitted
[2022/05/23, 11:36:20] Payet : i think the problem is with the adapter but i tried changing it no luck.....or maybe my database reference someone please check it
[2022/05/23, 11:56:05] Payet : It works but the sorting button doesn't work it takes you to profile and everytime when you vote it creates multiple of the post you just posted
[2022/05/23, 12:00:09] Abelwe Ndiki: May everyone test this code if they have the chance, I believe this should be the most up to date one
[2022/05/23, 12:01:29] Payet : @27637128758 or @27790876913 should add for the clicking part
[2022/05/23, 12:07:42] Thabelo: It didn't use to create multiple votes, I think something might have changed in the database that caused it to

snap, however though when you reload the app it still shows the votes properly.
[2022/05/23, 12:10:29] Thabelo: It seems we've been working on the older version before the sorting was coded.
[2022/05/23, 12:15:13] Rofhiwa: Shouldn‚Äôt have made an adapter for uploading pic only instead
[2022/05/23, 12:15:28] Rofhiwa: Should have
[2022/05/23, 12:44:28] Rofhiwa: Guy I don‚Äôt think I‚Äôll be able to make it to the sprint marking
[2022/05/23, 12:45:21] Abelwe Ndiki: Quick question. When you select a picture does it show in the database? This is very important because I'm trying to figure out how to do the presentation
[2022/05/23, 12:45:35] Payet : Yeah it does
[2022/05/23, 12:46:38] Payet : We don't have to tell them that we have to retrieve it right□üòÇthey don't know the user stories they hear them from us□üòÇ□üòÇjust a suggestion
[2022/05/23, 12:47:30] Rofhiwa: It does show in the database storage, but I‚Äôm not sure if the link it puts in the database is really correct.
[2022/05/23, 12:49:01] Abelwe Ndiki: This is what I wanted to do actually □üòÇ so I'm just going to say that we were supposed to simply choose a picture and show them that it reflects in the database
My follow up questions, in the user story where you show an individual's post on a seperate page of there was an object to display the picture, would it be possible to scrap it and remove the picture object and just show all the other details of the post?
[2022/05/23, 12:50:24] Payet : □üòÇ□üòÇ□üòÇ
I think we can just remove the imageview in the item
[2022/05/23, 12:51:00] Abelwe Ndiki: Yeah but before you remove someone needs to take the video and send it off to Tristan
[2022/05/23, 12:52:03] Payet : We haven't megged the code so that you can click on the post...@27790876913 can you merge the codes poi
[2022/05/23, 12:52:39] Abelwe Ndiki: Okay may everyone please compile everything and also send it to the group so I can run it on my side and make sure everything is above board for the presentation
[2022/05/23, 12:53:18] Rofhiwa: Which project is the latest?
[2022/05/23, 12:53:39] Payet : You can use the one I sent you yesterday
[2022/05/23, 13:07:06] Rofhiwa: The one you sent yesterday had a lot of issues poi, it wasn‚Äôt opening the homepage
[2022/05/23, 13:07:32] Payet : Use this one
[2022/05/23, 13:10:37] Abelwe Ndiki: I'm struggling to run this one on my side, so may someone run in and let me know if you can upload pictures and vote on this one
[2022/05/23, 13:13:04] Payet : It doesn't vote□üôÜ‚Äç‚ôÇÔ∏èi didn't use the code where the voting is working..I guess we will combine everything in the lab
[2022/05/23, 13:16:58] Abelwe Ndiki: We have less than an hour before the lab. I'm telling you now, we won't have time to compile everything and test it they work well together. If someone is infront of a PC may the please combine those 2 functionality and send them through so I can test them before the presentation
‚Äé[2022/05/23, 13:18:41] Thabelo: witsoverflow v.zip ‚Äédocument omitted
[2022/05/23, 13:18:42] Thabelo: Can someone at merge the vote.
And @27734843407 will you be able to reload the app to show update votes when presenting?
[2022/05/23, 13:19:54] Rofhiwa: I‚Äôm working on it,
[2022/05/23, 13:21:24] Abelwe Ndiki: I'm fine with this.
[2022/05/23, 13:22:02] Abelwe Ndiki: Thank you

[2022/05/23, 13:32:17] Rofhiwa: There,Äôs a upvote field which keeps getting added under Posts I donno who made it go there but it keeps making the app crash when we log in.
[2022/05/23, 13:35:10] Thabelo: The uid?
,Äé[2022/05/23, 13:37:37] Rofhiwa: ,Äéimage omitted
[2022/05/23, 13:41:26] Thabelo: I don't know about that one.
[2022/05/23, 13:41:49] Abelwe Ndiki: I'm trying to run this on my side as well
[2022/05/23, 13:44:05] Rofhiwa: Who ever keeps putting that field there please stop
[2022/05/23, 13:49:34] Abelwe Ndiki: May you try to merge again because I'm not fully understanding what the problem is but no one is coding on my side
[2022/05/23, 13:50:35] Abelwe Ndiki: Also in the mean time may someone refer me to the code that runs for the uploading the pictures, I'm struggling to pinpoint which one it is exactly cause alot of folders have been shared on the group chat. Worst case scenario we present one user story
[2022/05/23, 13:56:20] Rofhiwa: This
[2022/05/23, 13:57:26] Rofhiwa: For voting which classes did you use
[2022/05/23, 14:02:18] Thabelo: Temp, MyAdapter, Post.
[2022/05/23, 14:11:59] Rofhiwa: I feel like merging the voting part might take a bit of time, should I just send the one with uploading a picture and opening a post for now?
[2022/05/23, 14:18:45] Payet : Yeah
,Äé[2022/05/23, 14:24:10] Rofhiwa: WitsOverflow.zip ,Äédocument omitted
,Äé[2022/05/23, 14:33:52] Rofhiwa: WitsOverflow.zip ,Äédocument omitted
,Äé[2022/05/23, 15:13:50] Linge: ,Äévideo omitted
[2022/05/23, 15:36:36] Abelwe Ndiki: Sent to Tristan
[2022/05/24, 16:43:08] Abelwe Ndiki: Tristan is cool meeting tomorrow would 15:30pm work for everyone?
[2022/05/24, 16:43:39] Linge: I'm cool with it
[2022/05/24, 16:48:50] Sandile: Me too
[2022/05/24, 16:59:19] Payet : ￿üëä
[2022/05/24, 16:59:39] Rofhiwa: ,ÄéThis message was deleted.
[2022/05/25, 09:00:22] Abelwe Ndiki: Sent the invites for today's meeting :)
[2022/05/25, 15:02:34] Abelwe Ndiki: Hey everyone just a reminder that we have the meeting in 30 minutes at 15:30pm. I will start the meeting as usual but I won't be able to engage today as I have school task due at 4pm that I am still working on
[2022/05/25, 15:20:46] Sandile: Okay cool
[2022/05/25, 15:34:03] Abelwe Ndiki: Hey guys :) for clarity I think we will speak briefly on what we presented for Sprint 3 by speaking on the video we sent, but mostly we should just be getting the user stories for Sprint 4
[2022/05/25, 15:34:50] Abelwe Ndiki: So I don't think you will have to present anything, just listening in to what Tristan has to say
[2022/05/25, 15:39:29] Sandile: I suggest we dip at 15:45 ￿üåö
[2022/05/25, 15:41:02] Abelwe Ndiki: Agree with you
[2022/05/25, 15:48:37] Abelwe Ndiki: Sent Tristan an email
,Äé[2022/05/25, 18:42:13] Abelwe Ndiki: ,Äéimage omitted
[2022/05/25, 18:42:48] Sandile: Yoh
[2022/05/25, 18:55:15] Abelwe Ndiki: ￿üòÇ￿üòÇ￿üòÇ￿üòÇ My exact reaction unfortunately ￿üòÇ
[2022/05/26, 15:19:23] Linge: Me and @27790876913 wanna do de first one is it cool with everyone?

[2022/05/26, 15:24:07] Sandile: Okay cool. @27734843407 and I will do the second.
[2022/05/26, 15:25:25] Linge: I feel like whoever does 2 should do 3 too cause 2 u only have to create a button to go to another page
[2022/05/26, 15:26:41] Tshepang: Will do 3 with @27665431841
[2022/05/26, 15:31:57] Rofhiwa: I don‚Äôt really think it makes much sense to do number 3 only, because you literally just making a button and switching pages, I feel like who ever is doing number 3 should also do another one in this case its story 4
[2022/05/26, 15:33:32] Tshepang: We'll have to create a page which displays the reports as well .
‚Äé[2022/05/26, 15:38:41] Linge: ‚Äéaudio omitted
[2022/05/26, 15:40:08] Tshepang: alright i hear you, what do you suggest we do ?
‚Äé[2022/05/26, 15:40:46] Rofhiwa: ‚Äéaudio omitted
‚Äé[2022/05/26, 15:41:53] Linge: ‚Äéaudio omitted
[2022/05/26, 15:43:21] Tshepang: Alright, no problem üëçüèø
[2022/05/26, 15:43:35] Tshepang: what's wrong with the votes again ?
[2022/05/26, 15:45:20] Rofhiwa: We mean integrating with the main code
[2022/05/26, 15:46:46] Tshepang: üëçüèø
[2022/05/26, 15:50:36] Linge: Last i checked votes wasn't working properly
[2022/05/26, 15:52:41] Tshepang: Alright
[2022/05/26, 15:54:19] Tshepang: wait, you mean the refreshing part ?
[2022/05/26, 15:59:08] Linge: I'm not sure mara on Monday votes were appearing on posts
[2022/05/26, 16:01:50] Tshepang: the code we have works fine, maybe the mistake was when trying to integrate . But we'll look at it while we wait for 1-3 to be finished .
[2022/05/26, 16:07:58] Linge: Voting u can trying it now since it doesn't need any of the user stories for this sprint
[2022/05/26, 16:09:19] Tshepang: yeah, will do üëçüèø
[2022/05/26, 16:10:28] Linge: Danko poi n try doing it asap so w know we don't have to worry about it
[2022/05/26, 16:11:17] Tshepang: cool.
also please send the latest zip so we can work on it instead .
[2022/05/26, 16:14:53] Linge: It's this one
‚Äé[2022/05/29, 13:10:32] Abelwe Ndiki: Sprint 4 On Screen Requirements.pdf ‚Äédocument omitted

[2022/05/30, 09:11:46] Abelwe Ndiki: Thank you :)
[2022/05/30, 13:46:47] Abelwe Ndiki: Just a slight announcement on my side, I won't be present for the sprint 4 presentation next week. I'm writing an assessment on Monday and another assessment on Tuesday
[2022/05/30, 14:36:20] Puleng: you mean during the lab or google meeting with tristan?
[2022/05/30, 15:27:41] Abelwe Ndiki: Do we have a google meeting scheduled with Tristan on Monday/Tuesday?
I won't be able to attend the lab is what I meant by my original message. Someone will have to present to the tutor
‚Äé[2022/05/30, 20:27:58] Linge: Business Rules.docx ‚Äédocument omitted
[2022/05/30, 20:28:42] Linge: please go though these and tell me if you have a suggestion
[2022/05/31, 09:56:31] Abelwe Ndiki: Will do ‚ú®
[2022/05/31, 12:14:25] Sandile: Updated all the taiga documents and uploaded the high level software architecture for this sprint

,Äé[2022/05/31, 15:18:24] Tshepang: non-functional requiremnts.docx ,Ä¢
,Äé1 page ,Äédocument omitted
[2022/05/31, 15:18:42] Tshepang: please add/edit
[2022/05/31, 15:21:33] Payet : Sure

,Äédocument omitted
[2022/06/02, 16:47:11] Abelwe Ndiki: Would everyone be comfortable if I
try and schedule a meeting with Tristan for this Friday?
[2022/06/02, 16:51:53] Linge: I'm cool with it
[2022/06/02, 19:36:43] Payet : Cool with it...I think it will depend on
you guys cause on our side we done with our part and @27637128758 and
@27790876913 are also done with theirs
[2022/06/02, 20:05:30] Puleng: Will the demo video be ready by tomorrow
@27734843407 ?
[2022/06/02, 20:23:28] Rofhiwa: The part for displaying the reported
posts, is it done also?
[2022/06/02, 21:58:14] Linge: @27665431841 @27740483378   u gents
finished votes?
[2022/06/02, 21:59:07] Rofhiwa: Send the latest project so they can
intergrate
[2022/06/02, 21:59:47] Linge: Let me do some touch ups I'll send in an
hour
[2022/06/02, 22:01:45] Abelwe Ndiki: May everyone send through their
parts during the evening and I will finalize the document as well. If
people are still touching up, I will send Tristan a follow up email about
he can expect the demo video, latest Monday morning as a meeting tomorrow
might be too short notice for him as well (he hasn't responded to my
first email)
In the mean time, I have to remind you once again, that I won't be able
to be at the presentation so someone else will have to present and the
group hasn't decided who will take that little job üòÖ
[2022/06/02, 22:03:18] Payet : Little?üòÇüòÇ
[2022/06/02, 22:05:09] Katlego: @27637128758 says he,Äôll do it
[2022/06/02, 22:05:57] Abelwe Ndiki: üò≠üò≠üò≠ü§£
[2022/06/02, 22:08:23] Rofhiwa: Yeah I think he can handle it
@27637128758 üòé
[2022/06/02, 22:08:51] Payet : Yeah he is a big boyüòÇ
[2022/06/02, 22:10:41] Linge: üòÇüòÇHae fede I'm up for it mara let us
all remember incase i fvck up i didn't volunteer for this, i was chosen
[2022/06/02, 22:11:23] Payet : Hela "says" üòÇüòÇ
,Äé[2022/06/02, 22:11:55] Linge: ,Äésticker omitted
[2022/06/02, 22:12:56] Katlego: üòÇ I think you were there when he said
it
[2022/06/02, 22:13:19] Payet : Yeah I was thereüòÇ
[2022/06/02, 22:16:03] Payet : ,ùì,ùì,ùì,ùì
[2022/06/03, 02:02:47] Thabelo: Yes it's working.
[2022/06/03, 02:03:42] Thabelo: Hades for late response.
,Äé[2022/06/03, 02:04:27] Thabelo: voting integrated.zip ,Äédocument
omitted
,Äé[2022/06/03, 09:47:47] Linge: WitsOverflow.zip ,Äédocument omitted
[2022/06/03, 09:51:04] Linge: This does reporting
[2022/06/03, 09:51:32] Abelwe Ndiki: Thank you :)
[2022/06/03, 13:18:13] Payet : Sprint marks are out....we got
99üòÅü•≥ü•≥
[2022/06/03, 13:20:33] Abelwe Ndiki: Let's go!!!!
üíÉüèøüíÉüèøüíÉüèø
[2022/06/03, 17:20:21] Thabelo: @27637128758 , we just merged the voting
on this, can you please test it.

[2022/06/03, 17:21:28] Linge: Alright send it through I'll test it
,Äé[2022/06/03, 17:22:06] Thabelo: witsoverflow new.zip ,Äédocument
omitted
[2022/06/03, 17:24:28] Payet : last time i checked you were able to vote
many times did you get that or its fine like that?
[2022/06/03, 17:31:14] Linge: Its working mara it's still doing this, try
looking for a way to make it clickable once @27665431841
[2022/06/03, 17:31:49] Thabelo: In order to vote once per account/user I
think there should be a field in the database that says you have voted or
not. The person who designed the database didn't put that field, so for
now we can't make it vote once until that field is created.
[2022/06/03, 17:33:21] Thabelo: Okay will do.
Can someone add the field in the database.
[2022/06/03, 17:34:13] Linge: I think everyone has access to the database
so you can just add that mara wait a minute
[2022/06/03, 17:51:13] Linge: Have you finished your user story for this
sprint? @27665431841 @
